JM Roofing Company Of Pensacola Achieves 46 5-Star Reviews On Google

October 25, 2021

October 25, 2021 -
JM Roofing Company of Pensacola, based out of Pensacola, Florida, is pleased to share that they have received no fewer than 46 5-Star reviews on the Google platform. With years of experience in the roofing industry, the company takes pride in offering premium warranties, top of the line materials, dedicated customer service, painstaking attention to detail and impeccable craftsmanship.

A representative for JM Roofing Company of Pensacola says, ?When JM Roofing Company was established, we were clear on our founding principles: provide unparalleled roofing services with top tier customer service. We work hard to uphold that principle every day, and we are glad to see our efforts rewarded with not a single review below 5 Stars on our Google profile. These glowing reviews are an endorsement of the principles JM Roofing Company is founded upon and a testament to the hard work and dedication of the entire JM Roofing team. We take a lot of pride in this accomplishment, and have set ourselves a new objective: keep up the streak of positive reviews and get 100 5-Star Google reviews!?

The local roofers in Pensacola have every reason to celebrate. In a recent review, Jennifer Poston says, ?Best quality I've had out of the three roofing jobs I've had in my life. Karissa was always professional, on time and thoroughly versed me in every concept of the roofing job. Everything that was done to my roof was documented through phone calls, photos, text messages and emails. I highly recommend JM Roofing for all your needs. Ask for Karissa, she is legendary.?

In yet another review, Becky Sporck writes, ?Karissa is the best. This company went above and beyond to make sure I was satisfied. Now, about the quality, I cannot say enough to express what great work these guys do. Quality materials and workmanship. The crew was professional and took pride in their work. My yard was cleaner when they left than when they got here. Very happy customer. Thank you, guys.?

Demonstrating the consistency of the company?s work, Gary Hunter?s review from eight months ago shares,

?My roof was leaking from all the rain, so like anyone else, I went on Google to look for a roofer in Pensacola and to read other reviews. I spoke with Tina, who was especially friendly and set me up with an appointment for Lou. I was given a day and time, and Lou was here on time as scheduled. I shared my concerns with him, showed him where we had water spots in the home, and he immediately knew what was going on. He provided a detailed inspection for us and ultimately helped us through each phase of our roof replacement. From the moment he came to the door for the first time, I had a feeling he knew what we were doing and was clearly an expert. There was no BS with a 'salesman' trying to sell us on everything. Thank you to JM Roofing & Lou for such a job well done on our roof! For once I can say, ?bring on the rain!??

Much like the above three reviews, every other review on the page has nothing but praise for both the company and its team. JM Roofing Company of Pensacola credits this achievement to their commitment to providing reliable roofing services at fair prices. The company?s pledge to its customers promises that their job is not done until the customer is 100% satisfied, that they will provide quality materials at unbeatable pricing, that their team will treat the customers? homes as their own, that they will leave the home in a better condition than when they arrived, and that anyone who wears the JM Roofing Company logo embodies the company pledge.
