

A Plumbing Company in Tallahassee Offering Environmentally Friendly Drain Cleaner

October 25, 2021

October 25, 2021 - PRESSADVANTAGE -

Tallahassee, Fla. ? Most drain cleaners on the market today are made up of harsh, unsafe chemicals that can degrade pipes with continued use. A plumbing company in Tallahassee, FL, is here to offer a more environmentally friendly solution to its customers.

BioChoiceES® is a high-quality and eco-friendly drain cleaner that is EPA-recognized as safe to use in the home or business and can only be purchased from professional plumbers. According to the Mr. Rooter team, BioChoiceES® bears the EPA logo, a mark only provided to the safest products. As part of the Design for the Environment program, BioChoiceES® has been designed with sustainability in mind. EPA approval is the most important distinction our product can have?it lets buyers know that we are a stronger, safer alternative to the caustic and dangerous drain cleaners currently on the market.?

Unlike other drain cleaners, it is long-lasting and starts working quickly to remove organic matter, such as oil, grease, soap residue buildup, etc., that has settled in pipes over the years. A single treatment only calls for

half of a capful of cleaner with no mixing or measuring, as the top of the bottle acts as a measuring tool. Following the directions is imperative because the amount of cleaner needed is dependent on the particular drains and plumbing system. While this professional-grade cleaner may be slower to remove extreme clogs, it is still better for pipes, plumbing systems and the environment, by far.

The highly skilled team at Mr. Rooter of Tallahassee offers a variety of services to the community, including water leak detection, septic tank repair, underground pipe repair and so much more. For more information about BioChoiceES® or any other plumbing service, give Mr. Rooter a call anytime at (850) 273-5665 or visit them online at www.mrrooter.com/tallahassee.
