

Los Angeles Bus Rental Services Available Via US Coachways

October 31, 2021

October 31, 2021 - PRESSADVANTAGE -

Staten Island, NY based US Coachways is reaching out to the wider community to share that they are providing Los Angeles bus rental services. Since their establishment in 1983, US Coachways has been innovating in the charter bus rental industry and dedicating their efforts to provide effective, efficient group travel solutions across the United States.

Mark Telmany of US Coachways comments that Los Angeles is widely considered to be, "the entertainment capital of the world, and for good reason. There's simply nowhere like it, no place that offers the music, theatre, sports, shopping and dining experiences you will find there. However, it is also the second largest city in the country and there are more than 13 million residents within the greater LA area, which means that you would be better off hiring someone else to do the driving for you if you are planning to visit the city. With a charter bus rental from US Coachways, you can enjoy all that the City of Angels has to offer without any of the hassle."

Anyone who takes advantage of US Coachways' buses for rent will be pleased to know that their trip to Los Angeles will be entirely under their control. Telmany explains, "Your bus, your group, your way" that is our

philosophy. Every aspect of the trip will be yours to decide. Which part of LA you want to visit, when, how long you want to spend there, who you want to go with and so on, everything is up to you. We want your trip to Los Angeles to be comfortable and convenient for you.?

According to the company, charter buses are great for group travel to Los Angeles for a number of reasons, starting with the fact that a 55 passenger bus trip of 350 miles saves 50 lbs of CO2 in comparison to the 13 cars required for the same trip, meaning that they are more environmentally friendly. More importantly, however, charter buses provide a more comfortable method of travel. US Coachways' buses all have a lot of legroom, plush and wide seats, lots of space for luggage and a number of convenient features (WiFi, charging stations, PA and stereo systems, DVD players and more). Other amenities, such as on-board bathrooms, are also available on select coaches.

On top of this, US Coachways also has a team of trained and professional drivers who can ensure a safe and swift travel. This is especially vital during the pandemic, and US Coachways is proud to share that their buses are the safest way to travel, since they reduce exposure to uncontrolled elements. The company cleans their buses thoroughly after each use as well.

The services provided by US Coachways have earned the company a lot of praise from their community. Sean Taylor writes in their Google review, "I had the honor of chartering multiple buses through US Coachways to our annual retreat 171 miles upstate, and each one arrived on time and dropped us off ahead of schedule. The bus drivers are patient, courteous and extremely good at their jobs. Well done, US Coachways!?"

In another review, Dia C. writes, "I booked a 28 passenger mini bus for a family day trip after another bus company fell through. The US Coachways online booking process was very easy ? I got a quote quickly that was honored, and the sales team was very timely in answering a handful of questions I emailed them. They were also very helpful in making a change to my itinerary. The bus that arrived was clean and in great condition. The driver was friendly and arrived on time. It was a little unnerving not having the drivers contact info prior to our trip, but US Coachways did a good job of sending me updates the days leading up to our event and when the bus was dispatched that morning. Overall I had nothing but a positive experience with this company and would use them again.?"

Those who want to learn more about US Coachways, their charter bus fleet and the various services they provide can find more information on the company's website. The website also has a cost calculator which customers can use to determine their bus rental cost. Additionally, the company also encourages interested parties to get in touch with Mark Telmany directly via email, phone or other viable means. In addition to their

official website, US Coachways also maintains a page on Facebook where they regularly post updates, share pictures and more with their community.
