Santa Ana Tree Experts Appreciated by Homeowner for Being Responsive and Taking Quick Action on Tree Service Request

October 27, 2021

October 27, 2021 -
Santa Ana, California ? A company that goes out of its way to eliminate wait time for its customers, Santa Ana Tree Experts has impressed a homeowner after handling her stump removal procedure a day sooner. The homeowner ? Richard Susan ? appreciated the fact that the company responded instantaneously with a tree service quote and scheduled the tree maintenance procedure in a matter of minutes.

Describing her experience with the tree care company, Richard Susan had the following to report, ?I used Santa Ana Tree Experts to remove a stump. Response to my request for a quote was almost instantaneous. We agreed on price and schedule time all through Yelp within a matter of minutes. Work was done a day ahead of schedule. Excellent service!!! Excellent price!!!?

?While most homeowners tend to ignore stump removals after bringing their trees down,? said the Santa Ana Tree Experts CEO, ?this is not always a wise decision. A tree stump can render a portion of your land unusable, cause accidents, or damage your lawn maintenance gear. The moment a tree stump gets covered by overgrowth, it immediately turns into a hazard. Luckily for homeowners with tree stumps, we do get rid of the stumps. What?s more, we make it extremely easy for homeowners to book and schedule their stump removal procedures.?

The company?s chief of field operations noted that very few homeowners invest in stump removal immediately after bringing down a tree. The professional reported that the only homeowners who invest in immediate stump removals are those whose trees have been removed from a very visible part of the landscape.

?From the look of things, it looks like property owners in Santa Ana are more concerned with aesthetic

appeal than safety,? said the chief of field operations. ?This would be the best explanation for why someone would immediately invest in the grinding of a tree stump standing on his front yard and ignore a stump standing by the side of his house just because it is not visible. However, from what we have gathered, most people rarely consider stumps risks to their safety. It?s only after the homeowner, his wife, or his child, suffers an injury that he calls our team of tree cutting professionals in Santa Ana to help with stump removal.?

The chief of field operations also noted that property owners who are removing trees to create space for property development are also among those who request immediate stump removal.

?We would, however, like to encourage every homeowner to immediately follow up tree removal with stump removal,? said the chief of field operations. ?Our Santa Ana tree removal team always brings stump removal tools on every tree removal project. What?s more, we offer two stump removal options ? we can grind your stump or pull it out together with its roots. Both options are very affordable.?

The Santa Ana Tree Experts CEO narrated how the company was established over 25 years ago with only a Santa Ana tree trimming team.

?The company was initially only focused on boosting the aesthetic appeal on landscapes,? said the CEO. ?However, we realized that beauty is only enjoyable when it goes hand in hand with safety. This is why we introduced stump removal to ensure homeowners do not have tripping hazards on their landscapes. Of course, the stump removal procedure came after we had established the tree removal procedure. Tree pruning, however, has been around longer than both tree removal and stump removal.?

The company?s CEO noted that today his company acts as a one-stop-shop for all tree care procedures in Santa Ana. The company is reportedly equipped with modern tree service tools to make all procedures safe.

Santa Ana Tree Experts base of operation is located at 3861 S Bristol St, Santa Ana, CA 92704, United States. Tree owners, however, can contact the company via +1 949-359-8204 and sales@orangecountytreeexperts.com.
