

Tree Service Experts Rancho Cucamonga Uses Tree Removal to Save Homeowner from Constant Property Repair Costs

October 28, 2021

October 28, 2021 -
Rancho Cucamonga, California ? After contacting Tree Service Experts Rancho Cucamonga for help with a tree that was putting cracks on his concrete floor, the company advised Jackson Morris to get rid of the tree. Yesterday, the company sent its Rancho Cucamonga tree removal team which not only brought the tree down but also removed the tree stump together with its roots.

?When I kept spending money on floor repairs, I knew it was because of one of the trees in my front yard,? said Jackson. ?However, I couldn?t point out which one exactly. When Tree Service Experts Rancho Cucamonga arrived on my landscape, they used their knowledge in tree characteristics to point out the tree that was causing all the damage. After 5 hours of hard work, the team of tree cutting professionals in Rancho Cucamonga brought the tree down and removed the tree stump. They refilled the hole and leveled the ground after digging out the tree stump. They also collected the waste generated by the entire project, leaving my landscape looking better than they had found it.?

Tree Service Experts Rancho Cucamonga is reportedly one of the few companies in California that are helping lower the rate at which the urban forest is decreasing. To achieve its goal, the company is helping commercial and property owners minimize ? and avoid ? tree removals. Tree Service Experts Rancho Cucamonga, however, does not protect by forcing homeowners to deal with long-term losses that can be avoided. Whenever a tree proves to be more of a problem than it is offering benefits, the company is always willing to use its team of tree cutting professionals in Rancho Cucamonga to get rid of the tree.

?If a tree is costing you more than it is benefiting you,? said the Tree Service Experts Rancho Cucamonga CEO, ?the best course of action is to remove it. On average, the tree in Jackson?s front yard was forcing him to spend $300 per month ? annually, that is approximately $3600. What?s more, the damage would have increased over time as the roots grew bigger, forcing Jackson to spend even more money. Luckily for him, he decided to get rid of the problematic tree before things got worse.?

When working on Jackson?s landscape, Tree Service Experts Rancho Cucamonga used advanced tools to not only finish the project quickly but also eliminate the risk of property damage.

?The tree we were supposed to remove from Jackson Morris?s landscape stood just 5 feet from his house,? said the company?s chief of field operations. ?Our team realized that this was the reason the tree caused too much damage on his concrete floor. Bringing down the tree was not easy ? we had to come up with a plan that would help us eliminate the risk of property damage. Luckily for us, we had a crane, a bucket truck, safety gear, and ropes with us.?

Tree Service Experts Rancho Cucamonga first used its Rancho Cucamonga tree pruning team to remove the branches. This helped the company make the tree more manageable. Using its power cutting tools, ropes and a crane, the team cut the tree from the top, removing 2 feet at a time.

?We could not leave the tree stump on Jackson?s landscape,? said the company?s CEO. ?Jackson?s kids used the space for playing ? leaving the stump behind would have created a tripping hazard that could have injured the kids. Using our advanced stump removal machine, we lifted the stump out of the ground together with its roots. In addition to improving safety, the stump removal procedure also eliminated the possibility of the stump producing shoots in the future.?

Tree Service Experts Rancho Cucamonga offices are located at 6554 Veneto Pl, Rancho Cucamonga, CA 91701, United States. Homeowners, however, can book tree services via +1 909-487-1925 and sales@thelocaltreeexpert.com.
