

Brandon Medical Center Changes Lives With Exciting New Wellness Injections

November 01, 2021

Brandon, Florida - November 01, 2021 -
Brandon Medical Center is thrilled to announce the introduction of wellness injections. Wellness injections offer a streamlined approach to supporting the body with vitamins, amino acids, and minerals. The body does not efficiently use or metabolise specific vitamins such as B12 or Vitamin D through ingestion. Since traditional ingestion of oral vitamins is no match for vitamin injections, Brandon Medical Center is excited to offer this innovative new treatment. B12 Vitamin injections, IV therapy, and fat burning injections are all newly available at Brandon Medical Center.

Wellness injections are a valuable addition to Brandon Medical Center?s successful weight loss program. Injection therapies administered at Brandon Medical Center can enhance energy, boost metabolism, reduce fat, suppress appetite, and detox the body. IV therapy is clinically proven to support effective and balanced weight loss with beneficial nutrients. Vitamins and minerals bypass the digestive system to be absorbed efficiently by the body. The medical team works side by side with clients to create individualized plans that support optimal health.

"We are excited to introduce wellness injections at Brandon Medical Center. Many of our clients have used

these injections routinely and continue to use them, especially the B12 injections, as they see firsthand the benefits of the injections. The vitamin injections are provided safely and under the doctor?s supervision. The wellness injections are just another great benefit of Brandon Medical Centers? excellent health services," says Cindy K.

Brandon Medical Centers? clinical practice has been dedicated to assisting their clients to achieve better health and weight loss for over 5 years. Located in Brandon Florida, the clinic has focused its efforts on assisting clients to achieve weight loss goals and improve overall health. Brandon Medical Center was established in 2016 focusing on medical weight control, fitness, and nutrition. The Brandon Medical Center team is passionate about health and wellness, fitness and high-quality client care.
