

EMS Offers Payment Processing and Merchant Services for Local Missouri Businesses

November 02, 2021

Cleveland, Ohio - November 02, 2021 - PRESSADVANTAGE -

Electronic Merchant Systems (EMS) is a Cleveland-based Merchant Services Provider and is offering its payment and credit card processing services in Missouri.

EMS is seeking Missouri business owners who want to start accepting credit cards or, if cards are already accepted, update their existing merchant services. That includes standard credit card terminals, mobile payment acceptance, virtual terminals, gift and loyalty cards, eCommerce solutions, or whatever your business needs to thrive.

For business owners that require a mobile processing solution rather than a counter-top POS system, Electronic Merchant Systems offers EMSmobile. It provides a powerful mobile payment acceptance option to allow businesses to get paid on the go. EMSmobile is compatible with both iOS and Android devices. Business owners are provided a simple card reader that can connect to the business owner's device using Bluetooth. With EMSmobile, it is possible to create itemized or simple transactions, accept tips and manage cash payments, track and control inventory, and allow customers to dip, tap, or swipe credit cards.

Electronic Merchant Systems is a market-leading provider of retail point-of-sale systems. Not only can business owners accept all major credit cards like MasterCard, Visa, Discover, and American Express using EMS' MaxxPay, but they can add personalized track employee hours, issue gift cards, and set up low-quantity alerts.

Businesses that require an e-commerce solution can opt for EMS' Virtual Terminal that allows customers to place their orders or pay securely on the web. EMS' Virtual Terminal is an interface that is fully integrated

into a payment gateway and the user can run the gateway as if it were a credit card terminal on any computing device, including mobile devices. The Virtual Terminal is browser-based, meaning that it is fully accessible through any web-enabled computing device.

For local restaurant owners, EMS offers Total Touch POS. Total Touch is a comprehensive restaurant Point of Sale system that provides benefits such as Online/Mobile Ordering Options, Open Table Management, and an easy-to-use interface.

For over three decades, EMS has been helping business owners maximize their cash flow and streamline their operations. One aspect that cannot be understated is EMS' focus on safety and security for both businesses and customers. EMS has been a certified level 1 PCI provider for over ten years.

EMS was designated one of Retail CIO's Top 10 Most Promising Payment and Card Companies in 2019, a Top 20 Most Promising POS Solution Provider in 2020, and a Top 10 provider in CIOReview's Mobile Payment 2021.

In addition, EMS has collected over 975 Google Customer Reviews with a rating of 4.7/ 5. Here is one of the many positive reviews, written by Sherry Nau, "Great service, easy to use system and helpful staff!"

Business owners that are interested in the best Missouri payment processing solutions can learn more about Electronic Merchant Systems via their website or contact them over the phone.
