J&M Tree Service Rancho Cucamonga Helps Property Owner Eliminate Tenant Complaints with Tree Trimming

November 08, 2021

November 08, 2021 -
Rancho Cucamonga, California ? Last week on Thursday and Friday, J&M Tree Service Rancho Cucamonga worked on the trees surrounding Chris?s rental properties. Using tree trimming, the company opened the rental properties to the outside world. This eliminated the complaints that Chris had been receiving from his tenants.

?Owning rental properties is not always easy,? Chris said during an on the record interview with reporters. ?The first thing that rental property owners have to deal with is the numerous complaints coming from their tenants. For the past two months, the complaints have been about inaccessibility ? the tenants said that they could not access sunlight. Also, those who have rooms on the front end of the properties said that they could not see what was going on in the streets.?

?When the property manager called J&M Tree Service Rancho Cucamonga for an assessment,? added Chris, ?the company was very forthcoming with ideas on how to fix the problems. While tree removal was on the list, the company?s team of qualified professionals advised against this option ? instead, they recommended tree trimming which would not only reduce the overall cost of the project but also keep all the trees on the compound.?

To see the professional tree services J&M Tree Service Rancho Cucamonga offers, visit its official website: https://www.riversidetreecare.com/tree-service-rancho-cucamonga/.

Chris noted that after the tree trimming, his tenants haven?t complained. The property owner noted that he finally managed to go for a whole weekend without receiving calls from unsatisfied tenants.

?The Rancho Cucamonga tree pruning team did a very impressive job,? said the property owner, ?they did not just trim the trees and leave ? they also cleaned the landscape, putting all the waste generated by the

entire procedure in their trucks and taking it to the dumpsite. One of the tenants called to report that he liked the way the team dealt with the waste.?

Chris told reporters that he was willing to hire J&M Tree Service Rancho Cucamonga again. In addition to doing more than he expected, the company reportedly charged him a very affordable price.

?When people go to the barber,? the J&M Tree Service Rancho Cucamonga CEO told reporters when they contacted him for more information on Chris?s project, ?they leave the barbershop looking more attractive. Tree trimming can be compared to a nice hair cut ? the tree maintenance procedure improves the beauty of trees.?

?What?s more,? added the CEO, ?trimming opens up the trees. This makes the outside world more accessible to those surrounded by trees. When the company?s tree trimming team worked on Chris?s trees, the goal was to offer the two benefits ? make Chris?s landscape more attractive and ensure the tenants have access to the beautiful sunrises and sunsets.?

The reporters asked the company?s CEO how his team managed to keep the tree trimming price so low despite having to work on over 20 trees. The CEO was very clear on the strategies that his team uses to reduce the cost of professional tree services in Rancho Cucamonga and neighborhoods like Eastvale, Diamond Bar, Arcadia, Sierra Madre, El Cerrito, Villa Park, and Yorba Linda.

?One of the factors that affect the cost of tree maintenance is the time spent on each tree,? said the J&M Tree Service Rancho Cucamonga CEO. ?If a team spends 3 hours working on one tree, you can be sure that the tree will have a higher tree maintenance cost than a tree that requires less than an hour.?

?When working on Chris?s trees,? added the CEO, ?the Rancho Cucamonga tree trimming team was using modern tree service tools. Instead of climbing up the rees manually, the team used bucket trucks to reach the tree crowns in seconds. Taking less time to complete trimming on each tree, the team reduced the project's cost.?

J&M Tree Service Rancho Cucamonga base of operation is located at 9650 Business Center Dr, Rancho Cucamonga, CA 91730, United States. Property owners, however, can book tree services via +1 909-344-5143 and sales@riversidetreecare.com.
