

Clipper Construction Opens Office in Baltimore

November 11, 2021

BALTIMORE, MD - November 11, 2021 - PRESSADVANTAGE -

Baltimore based Clipper Construction is pleased to announce that they have opened a brand-new office in Locust Point. The company has always placed great importance on customer service, and this new office will allow them to serve their community with more efficiency. Those looking for directions can visit <https://www.google.com/maps?cid=1837261123079227224>. The office is located at 1354 Cooksie St, Baltimore, MD 21230 in Locust Point, next to the Under Armour headquarters.

The owners of Clipper Construction have been serving the city of Baltimore for over a decade, providing commercial construction services. Clipper Construction understands that every commercial construction project is unique. Their talented and fully insured crews are available to provide their customers with top-notch professional workmanship for all of their needs, from simple service calls to ground up new construction, including pre-construction, design, and engineering services.

The company emphasizes that they will work to ensure that customer satisfaction is guaranteed. Their mission statement can be read at <https://rebrand.ly/baltimorebuilder>. With the opening of the new office in Baltimore, the company hopes that they will be able to improve their standard of service, a standard which is

already maintained at the highest level possible.

"Clipper Construction has always maintained a high degree of excellence in their service, and the opening of an office is just another way that they are working to continue to improve customer satisfaction. We have already received wonderful feedback from our customers regarding our new location," said Evan Roberts, the Managing Partner at Clipper Construction.

Clipper Construction has been providing commercial construction services to the state, starting with Maryland. As they continue to expand their footprint in the state, Clipper Construction is committed to expanding into new areas as well. They are currently seeking local contractors who are interested in partnering with them for future projects not only throughout Baltimore but also surrounding cities such as Towson, Annapolis, and more. Readers who are interested in partnering up with Clipper Construction for Baltimore projects can visit their website to learn more about them and their services.

The Baltimore based company is an ideal choice for commercial solutions for many reasons, one of which is the quality of their workmanship. The team offers commercial construction services such as structural repairs, flooring, and more. Their fully insured team is also available for service calls of any size, from water damage restoration to finishing work on new buildings. They have experienced professionals who have completed dozens of projects in a variety of industries including medical, restaurants, retail, warehouses, laboratories, multi-family, and offices.

What sets Clipper Construction apart from the competition is their ability to innovate and adopt technologies that reduce costs and improve their customer's experience. Their custom client portal allows customers to view drawings and change orders, check the status of their project and pay invoices online. Clipper Construction also uses 360 image technology on all of its jobsites and send their clients updated weekly reports on project progress.

Clipper Construction was founded with the goal of establishing a uniqueThey started their company that provides superior service with integrity. Clipper Construction will always be committed to this goal, and they are working hard every day to uphold the level of quality found in their services. They view their construction company and not only providing value to their clients but to the Baltimore community at large. Building strong relationships with the community is an essential part of what will help Clipper Construction to continue to grow and expand into new locations.

Clipper Construction's goal is to meet their client's construction needs quickly, efficiently, and effectively, no matter what it takes. They understand that every business has different wants and needs in terms of their

construction services, which is why they are committed to listening closely to what their client's have to say. They will go above and beyond in order to ensure that the client's vision is brought alive on the project, whether it be new construction or repairs of existing structures.
