Fix It Right Plumbing of Melbourne Australia Announces a Recent Move Into a Much Larger Facility

November 30, 2021

CARRUM DOWNS, VIC - November 30, 2021 -
Melbourne, Australia-based Fix-It Right Plumbing is a company that is always looking for creative and practical ways to better serve its customers. A good example of that is this reputable plumber Melbourne recently announced that they have moved into a new facility. One that is much bigger and more centrally located than the old one. "We recently moved into 2 Insight Circuit Carrum Downs, Victoria which is our new headquarters," says the company spokesperson. "This new facility is almost double in size from our previous location with significantly more office and factory space. This has enabled us to expand our customer service team which helps us quickly and more efficiently respond to incoming calls/bookings/enquiries for both our new and existing customers."

According to the company spokesperson, once they decided to acquire the new building everything moved along very quickly and they were willing to make the significant investment to do it because they are not only a company that makes sure that all of their plumbing work is done the right way, but they always have placed an extreme emphasis on timely service and customer care as well. He went on to mention, "Our larger factory space has enabled us to do such things as purchase & easily store more state-of-the-art plumbing equipment including our new drain relining gear. This means we can now offer our customers more options when it comes to getting their drainage problems fixed long term, therefore, it also gives them the peace of mind that they won't have to deal with these issues again any time in the near future. The larger factory space also means we have been able to recruit and support a larger team of experienced and reputable plumbers. Our growing team means we can service more customers promptly and at the same time offer our services in many different geographical areas of Melbourne." He also pointed out that having more factory and warehouse space means they can keep their service vehicles fully stocked with all of the common plumbing repair parts, which will significantly cut down on their need to make second trips to satisfy their customers' plumbing needs. It will also enable them to store more items, so even the largest plumbing projects that Fix-It Right Plumbing takes on can get underway much faster since there is no need to wait on supplies to arrive in most cases.

The company spokesperson also stated that nothing their customers already like about the company will change with the move into the new and bigger facility. That includes still offering the same large variety of quality plumbing services that they have always been known for and offering their ?fixed right, first time? guarantee. The company has plumbers that are experts when it comes to drain clearing in addition to resolving all different size plumbing leak issues. They also can take care of a wide variety of hot water-related problems and handle any plumbing maintenance issues in and around Melbourne homes. Fix-It Right Plumbing is also known for resolving issues with natural gas lines and the related equipment that uses it.

Glowing reviews on the company?s services show that Fix-It Right Plumbing gets it right when it comes to the decisions that they make on how they can better serve their customers' plumbing needs. Ema Stancic proclaimed, "Fantastic service, called yesterday and had Josh come out today. Josh did a great job of explaining what was happening and the different options to fix things, he was very professional, friendly & knowledgeable. I'm happy with the result, thanks!" Clinton Lane stated in his 5-star review, "Jack their plumbing tech turned up ?exactly? on time. He was professional, polite, and explained the whole process. A 3-hour job but all was fixed appropriately! He even thoroughly cleaned up after himself. I highly recommend this company."

The company spokesperson says that they welcome those in Melbourne and its surrounding suburbs, Geelong, Canberra, Adelaide, Sydney, the Gold Coast, that would like more information on their reputable plumbing services to give them a call, send them an online booking, or fill out the contact form that can be found on their website.
