Expert Roofing Provider in Brantford ON Gets Another Five-Star Review

February 01, 2022

February 01, 2022 -
Straight Arrow Roofing, a company based in Brantford, ON, Canada, is proud to announce that they have received yet another five-star review from a satisfied customer. In this particular roofing project, the client had a roofing emergency, which the expert roofing provider attended to promptly and efficiently. The company has earned the reputation of being an expert roofing provider in the Brant Region in Ontario and has over 10 years of experience in the roofing industry.

Straight Arrow Roofing is GAF-certified and is capable of providing different kinds of roofing and related services. These include emergency roofing services; roof inspections; siding installation and repairs; roof leak repairs; soffits and fascias; flat roofing; and gutter installation and repairs. They also provide roofing maintenance and repairs because they believe this is an important part of the process of making sure that the roof will do its job of protecting the home from the elements. Proper roof maintenance can also extend the life span of a roof. They also suggest that homeowners regularly inspect their roof to find out if there are any obvious issues and if there is any growth of vegetation, including moss within the gutter. If a roof leak is found, homeowners will have to take prompt and quick action to have it repaired. And it is vital to always call on professionals to handle the roof maintenance job.

In the recent Straight Arrow Roofing customer review, Brandon O. gave the company a five-star rating and said, ?When we had a roofing emergency, Straight Arrow Roofing was able to get us in quickly and get the job done in a timely and efficient manner. Any issues or concerns we had along the way were dealt with directly and professionally by the owner. I would recommend them to anyone in the areas they serve.?

Straight Arrow Roofing can handle: residential roofing; roof repair; siding installation and repairs; eaves-troughs and gutters; attic insulation; flat roofing; skylight installation and repairs; roof maintenance; and more. The residential roofing services can be categorized into five key classifications. These are roof inspections, roof leak repair, roof installation, roof maintenance, and new roof construction. Roof Inspections and maintenance should be done bi-annually as recommended by the National Roofing Contractors Association (NCRA).

They also offer flat roofing services in Brantford, Ontario, which is typically required for commercial buildings. They offer various kinds of flat roofing, such as the: original flat roof that is covered with lead, zinc, copper, or other pliable material; traditional cold felt flat roof; modern traditional cold felt flat roof; and modern flat roofs. Modern flat roof systems offer various alternatives with single-ply roofing, ranging from thermoplastics and rubber roofing systems, being the most popular. Also gaining in popularity are green roofs or living roofs, which allow grass-like flora to grow on the roof.

In addition to roof installation and repair, Straight Arrow Roofing can also provide siding installation and repair services. They can repair or replace sidings with products that have an EnergyStar, which will not only make the property appear attractive but will also make it energy-efficient and maintenance-free. They suggest fiber cement for those who are looking for a low-maintenance siding that looks like the traditional wood siding. While it looks like wood siding, it is very resilient and will not easily rot, crack, or warp.

Established in 2014, Straight Arrow Roofing began its operations with only one truck. But with founder Joel Guerra?s commitment and the expertise of the staff, the company has steadily grown and has earned the reputation of being a reliable roofing contractor with skilled roofing professionals who can do the job efficiently and effectively and also have the capability to handle larger and more complex roofing projects.

People who are in need of expert roofing in Brantford ON can visit the Straight Arrow Roofing website, or contact them through the telephone or via email. They are open from 9:00 am to 6:00 pm, from Monday to Sunday.
