MoldStar Remediation, one of Atlanta?s most trusted names in mold remediation, mold cleanup, and water extraction, has published a new post on their website via the resources tab. The post titled ?Does Homeowners Insurance Cover Mold Removal and Remediation?? answers some of the most common questions owner Jeremy Shelton gets asked regularly. When it comes to mold removal and remediation, dealing with insurance companies can be a tricky road for homeowners to navigate.

Since experiencing his own ordeal with toxic mold in the crawlspace of a home he had purchased, owner Jeremy Shelton has made it his mission to empower homeowners with the knowledge they need to combat their own mold problems. With over a decade of experience in indoor air quality and mold remediation, Shelton is one of Atlanta?s most trusted names in indoor air quality. With certifications from the IICRC in Water Damage Restoration and Applied Microbial Remediation and being a Certified Microbial Consultant through the American Council for Accredited Certification, Shelton is one of the foremost experts in the field.

When asked for a comment, Shelton had this to say, ?There?s so much misinformation out there in regards to mold and indoor air quality and how it affects your health. I perform more than 1,200 inspections a year, and there?s not much I haven?t seen. It?s my mission to educate first and ultimately help those in need solve their problems.?

Homeowners within Atlanta, Sandy Springs, Roswell, Marietta, and other surrounding Metro Atlanta areas suffering from toxic mold exposure are invited to speak with the MoldStar Remediation team to schedule a free consultation.
