While they continue to have a strong focus on the specific needs of women with regards to motorcycling, they now also have an inclusive offering of a full range of men's motorcycle gear and apparel. Their products are mostly available online, which means they have accurate sizing charts and they can provide fast shipping. They opened the Moto Femmes showroom in May 2019 but they continue to maintain their online presence. The showroom turned out to be a huge hit because it provides the locals and visitors a way to meet personally, check out the available gear, and feel that they are a member of the Melbourne bike community.
