The Frequently Asked Questions were created to help others who may have these same exact questions about the company and their services.

Company owner, Edgar Saucedo, commented, ?We wanted to make it easier for our customers to get the information they need to help with their decisions. By answering the most frequently asked questions and placing them on our website, our customers can get the information they need and place their orders in a few minutes directly from our website. This will help save our busy customers a lot of time.?

One of the questions that is asked quite often is, "What kind of debris can be disposed of in the dumpster rental?" It is important for those who rent a dumpster to know what can and cannot be place in the bins for disposal. Certain items cannot be thrown in a dumpster due to safety hazards or local regulations. Typically,

any non-hazardous material can be put into a dumpster. Household junk and debris from construction or home improvement projects are typically allowed in a dumpster. This includes remodeling debris such as drywall, lumber, flooring, cabinetry and siding, as well as general household items from decluttering projects. Learn more about the items that can go in a dumpster in most areas by visiting the company website or by calling their customer service department.

Company owner, Edgar Saucedo had this to say, ?Our dumpsters can be used for storm debris removal and cleaning up uncontaminated and non-hazardous materials. We usually accept damaged building materials and yard waste as well, provided that the items fall within the given service area's restrictions.?
