

Akron Roofing Company Delivers Personalized Service

December 08, 2021

December 08, 2021 -

Akron, OH based Craig Roofing would like to reach out to local residents who may be in need of a reliable roofing company that considers their needs in every job. Craig Roofing offers roof installation, replacement and maintenance, all aimed at keeping Akron homeowners' roofs in excellent condition. Combining 15 years of experience with only the best materials, Craig Roofing provides a family-oriented, personal service that most roofing companies in the area cannot beat. Their services come with some of the longest warranties in the area as well, with some reaching 30 or even 50 years, thanks to the high quality of the shingles they use (from brands like GAF, CertainTeed and Owens Corning).

"Our experienced team at Craig Roofing is here to help with all of your roofing needs," says the roofing company. "We love serving the community, providing affordable roofing services and high quality installation and repairs. With over 15 years of combined experience and over 250 roofs installed, we will be around to keep your family's home healthy for years to come! Akron is our home, and there's nothing more we'd rather be doing than serving our communities throughout Northeast Ohio with the best roofing services possible. Dealing with roof repairs and replacements is inevitable as a homeowner. Luckily, when you choose a local, reputable roofer like Craig Roofing, it's something you should only have to do a few times in your life. We make the process easy and affordable with our personal project management and experienced team of certified roofers."

Craig Roofing's services cover everything from repair to replacement and everything in between. Their residential roof repair services are considered by many to be second to none in Akron. They are A+ BBB accredited and always ready to serve the residents of Akron, Cleveland and the surrounding areas of Northeast Ohio. As a local roof repair company, Craig Roofing understands the importance of serving the community and keeping its neighborhoods beautiful.

Roof replacement, one of the most commonly requested services at Craig Roofing, is one of the most delicate operations that can be performed on a roof. This is due to the fact that a badly done replacement can lead to the need for more expensive repairs and replacements long before the roof would have otherwise required them. Fortunately, Akron homeowners can expect a quick, affordable and expertly done roof replacement experience with Craig Roofing. They have come to be known as Akron's number one roof replacement company, and for good reason.

There are a number of ways to tell when a roof needs replacement. One of the easiest ways is to inspect the roof from within the home itself. Most roof related issues can be identified from the attic, and with the help of a simple flashlight and an attentive eye, homeowners can easily locate signs of water damage or openings in the ceiling. While it is possible to inspect a roof from both the inside and the outside, the latter is generally quite dangerous. As a result, it is better to simply leave it to professionals like Craig Roofing.

A number of happy homeowners have left excellent reviews of the Akron roofing company on various platforms. One Google review from Clint Upton says, "DJ and Jeff did a great job working around my not so flexible schedule. DJ was able to come out the same day I reached out for a quote, and was very open with the quoted cost. They were able to get a crew to install my roof on a Saturday since I've been working from home. They were also able to accommodate installation of a new roof vent for a bathroom exhaust that didn't already exist. Great work from Craig Roofing, definitely a recommend for a local quick and efficient company."

Chris Oleksy similarly shares, "I wish that I could score them 6 stars out of 5. Shingles removed and replaced. Additional layers of waterproofing were added compared to the last replacement. Looks beautiful. When I returned from work, the project was nearly finished. I saw my gutter guards on the lawn, which I did not want to remove. I contacted Craig Roofing and Jeff Craig explained that my gutter guards were old, so he decided to replace them at no cost (with a higher quality guard). Wonderful and trustworthy company."

Homeowners are welcome to get in touch with the company through the Craig Roofing Facebook page. Their team can also be reached via phone and email.
