

Partnership Between Luminous Vitality Behavioral Health and Bliss Drive Set to Transform Telemed

December 28, 2021

Wrentham, Massachusetts - December 28, 2021 - PRESSADVANTAGE -

Luminous Vitality Behavioral Health, a practice in Wrentham, MA, that offers telepsychiatry services from Dr. Ronald Lee, MD, is happy to announce that they have formed a new partnership with Bliss Drive, a digital marketing agency with offices in Irvine and Los Angeles, CA. Ronald Lee, MD is a private practice psychiatrist and psychopharmacologist who serves residents of Massachusetts through telemed treatment.

Psychiatry services for various conditions are available. These include: anxiety disorders, autism spectrum disorder, attention deficit disorder / attention deficit hyperactivity disorder, bipolar / mood / psychotic disorders, adjustment disorders at vulnerable stages of life, major depression, obsessive-compulsive disorder, peer relationships (romantic or platonic), bereavement / grief due to loss, self-esteem and body image issues, trauma and PTSD, insomnia, patients in active recovery from substance use disorders, and cultural dissonance.

Dr. Ronald Lee offers various treatment modalities. These include: pharmacologic management, dialectical behavioral therapy, cognitive behavioral therapy, motivational interviewing, and psychodynamic psychotherapy. Cognitive behavioral therapy is a type of psychological treatment that has been observed to

be effective for a variety of issues, such as anxiety disorders, alcohol and drug use problems, depression, eating disorders, severe mental illness, and marital problems. It often involves efforts to modify thinking patterns and alter behavioral patterns. Dialectical behavioral therapy is a kind of cognitive behavioral therapy that may be used for the treatment of suicidal and other self-destructive behaviors. Motivational interviewing is a counseling approach to encourage behavioral change by helping patients explore and then resolve ambivalence. Psychodynamic psychotherapy or psychoanalytic therapy has the main purpose of revealing the unconscious content of a person's psyche as a way to reduce psychic tension, which is an inner conflict within the mind that was the result of a situation with extreme stress and emotional difficulty.

Meanwhile, Bliss Drive is a digital marketing company that provides an effective and comprehensive online marketing service. They will focus on optimizing their client's online exposure and will not simply strive to increase the number of new customers for the company but also enable them to have better customers that will ultimately result in better sales and higher profits. Bliss Drive can offer clients several advantages: positive ROI for the client as the company's main priority; responsiveness that clients can rely on; stress-free delivery of work; and more than 50 years of combined experience of their SEO specialists.

Bliss Drive can provide digital marketing, web design, SEO services, and content marketing. First, they will perform a website redesign for businesses that are experiencing difficulties in getting visitors to remain on their website. Their web design and development team are all experienced and skilled creating an attractive website. In addition, they will make sure that the site's coding is clean and that the pages will be loading correctly on the smaller screen of mobile devices. After providing the website design, they can perform search engine optimization (SEO) for the website. SEO is one of the primary techniques for optimizing site traffic. Studies have shown that websites that are optimized get more than 60 percent of their traffic through the search engines. And finally, they can provide assistance in the creation of content across various platforms while ensuring that the vision and message of the company will be consistent all throughout. Those who want to learn more about Bliss Drive can visit their website.
