Missame Bath Bombs Featured On Style, Decor & More Blog

October 26, 2015

October 26, 2015 -
Missame LLC, a business in Sacramento, CA is very proud to have been featured on the popular Style, Decor & More blog. The blog provides information to people about how to decorate their home, be more stylish and basically look after the body both physically and mentally. They have cited the bath bombs as the perfect accessory for a luxury at home spa experience.

"We are so proud to have been noticed by Nancy, the author of Style, Decor & More," says Amy Ng from Missame LLC. "For her to describe our bath bombs as providing a spa-like experience in your own home is more than we could ever have asked for. It is lovely to be appreciated for what you do, after all."

The bath bombs are all hand made in the USA. They are fully organic and consist of sunflower oil, organic shea butter and sea salts. Adding these to a bath results in smoother, softer skin. Because the bath bombs are scented, they also provide an aromatherapy experience. As such, people come out of the bath with soft, supple and healthy skin, but also with a relaxed mind. Feeling good on the inside is just as important as being health on the outside, as the two are inextricably linked.

Since having been released, the bath bombs have received many positive reviews by people who have purchased them either for themselves or for others. "Get ready to be spoiled and pampered because these bath bombs are amazingly excellent!" says Elizabeth Suarez. "This is the first time I buy a bath bomb and I love it. I love the relaxed feeling after my bath, and my skin feels so soft. Even my husband loves them. So what is a bath bomb? Simply, a hard-packed mixture of dry ingredients which effervesces when wet, and they add fragrance, essential oils, and colorant to your bath. Well, as soon as I opened this box of lush bath bombs the sweet smell hit my senses!"

Suarez and many other reviewers emulate what has been stated in the Style, Decor & More blog. Missame hopes that many more people will be able to enjoy ultimate relaxation.
