

# Best Buds CBD Store Now Offers CBD Gummy Sample Pack

*January 24, 2022*

January 24, 2022 - PRESSADVANTAGE -

Best Buds CBD Store, located in Fort Lauderdale, FL, is happy to announce that they now offer CBD gummy sample packs in their store. These sample packs are suitable for two kinds of people. One is those who have not yet tried CBD gummies before and are unsure if they can help with sleeping, relieving anxiety, etc. So, instead of hesitating about buying a jar of CBD gummies, they can try a sampling of the different flavors of CBD that the store can offer that they can consume for four to five nights before they decide to buy a jar. The second type of people are those who have already tried CBD before but would like to make sure that they enjoy the taste of the gummies before ordering a whole jar. They can choose from the various flavors and opt for the flavor they like best when buying a jar containing 1500 mg of CBD gummies.

Stephen Bis from the Fort Lauderdale CBD company says, "We understand that at first buying a whole jar of CBD for someone who's never tried it may seem a bit much. But we also know that many people find our CBD gummies to be very helpful, and they also love the way they taste. The point is that most people who try them wish to purchase more. So these CBD sample packs are perfect for people to get a taste of CBD for a low price."

Justin Davenport, also from Best Buds CBD Store, says, "For so long I would give little plastic bags full of CBD gummies to all my friends who would come over, and sure enough many would come back looking to buy a jar. So this progression of putting them on our online CBD store only made sense."

CBD stands for cannabidiol, a compound found in the Cannabis sativa plant, better known as marijuana or hemp plant. It is the second most prevalent active ingredient of the cannabis plant, after tetrahydrocannabinol (THC), which is the one that causes the "high" that people get when consuming marijuana for recreational purposes. In contrast, CBD does not provide the "high," and THC is only found in trace amounts (less than 0.3 percent) in full-spectrum CBD, which is insufficient to produce any high. Meanwhile, the CBD isolate products have undergone more refinement so that all trace amounts of THC have been eliminated, leaving

just the CBD.

CBD is often consumed by many people to help with sleep and for the treatment of certain ailments. These include anxiety, inflammation, chronic pain, depression, and more. While there is still insufficient research to allow experts to conclude how effective these treatments are, there have been many studies on how CBD can help with certain conditions.

The CBD gummies from Best Buds CBD Store are of two kinds: full-spectrum and vegan. Available varieties for the full-spectrum CBD gummies include the: Full Spectrum CBD Neon Cube Gummies; Full Spectrum CBD Watermelon Rings; Full Spectrum CBD Party Pack Sour Gummy; Full Spectrum CBD Clear Gummy Worms; Gummy Bears Full Spectrum CBD; Full Spectrum CBD Clear Bears Gummy; Full Spectrum CBD Sour Gummy Worms; Full Spectrum CBD Neon Rings Gummies; Full Spectrum CBD Apple Rings Gummies; Full Spectrum CBD Blue Raspberry Rings; Full Spectrum CBD Sour Bears Gummy; and Full Spectrum CBD Smiley Faces Sour. Meanwhile, there are two vegan varieties: Vegan Full Spectrum CBD Gummy Bears - Focus & Energy and Vegan Full Spectrum CBD Gummy Bears - Sleep & Relaxation.

They also offer CBD pet treats, topical CBD creams, tincture oil, and natural soaps. They can also provide Delta 8 gummies, which contain Delta 8 THC. Delta 8 THC is less psychoactive than Delta 9 THC and may be beneficial for health because it can produce a neurotransmitter called acetylcholine. This neurotransmitter can help with cognition, memory and information retention, mental acuity, neuroplasticity, and physical arousal.
