

Virginia Hot Tub Movers Now Serving More Locations

December 21, 2021

Washington, District of Columbia - December 21, 2021 -
McLean, Virginia based MyProMovers is pleased to announce that their hot tub moving services are now available in Northern Virginia, Maryland and Washington DC. The company is dedicated to ensuring safe and efficient moving services to the residents of Virginia and the surrounding communities.

Tursun Alkau of MyProMovers says, ?If you have a hot tub and are considering moving houses, you might be wondering how exactly you are going to move your hot tub. Almost anyone will agree that the logistics of moving with a hot tub is a stress inducing situation. However, virtually any hot tub owner will say it is worth it just because of how useful it is to destress and recuperate after a long day.?

He continues, ?Unfortunately, the problem is that hot tubs weigh a lot, so moving one is no easy task. That is why you need to reach out to established professionals who have experience with such objects. Now, with the expansion of our service areas, residents of Northern Virginia, Maryland and Washington DC can rest assured knowing that they have access to reliable hot tub movers.?

The average hot tub relocation service costs starts at $400 for the smallest hot tub (which weighs

approximately 300-400 lbs). The final cost of a hot tub move will depend on several variables, including the weight and size of the hot tub, the distance of the move and the level of challenge to load or unload the hot tub at each location. However, MyProMovers assures that the costs are worth it: the hot tub and spa movers employed by the company are fully licensed and insured professionals who have previous hot tub moving experience and can get the job done efficiently and effectively.

MyProMovers, as a whole, is a licensed and insured moving company. Their goal is to provide the highest quality of service possible and to continue solidifying their reputation as a premier moving and storage expert. MyProMovers specializes in local and long distance moving as well as residential and commercial moves. In addition to their moving services, they also provide packing services and a variety of moving supplies.

Anyone interested in trying their hand at more DIY methods to move their hot tubs should know that while the task is often better left for professionals, it is not impossible to achieve with the help of a few strong people. On their website, MyProMovers provides a 10-step guide for those who want to move their hot tub by themselves.

The services provided by MyProMovers have endeared them to their community, and the company has glowing reviews to serve as evidence of this. On the Google platform alone, MyProMovers has a stellar rating of 4.8 out of 5 Stars from over 220 reviews. One customer says in their 5-Star review, ?Paulo and his crew did an amazing job. It was easy to schedule. They were polite and courteous, arrived on time, packed everything efficiently, worked hard and they got done quickly. I definitely and highly recommend and plan to use them next time. Thanks again!?

In another review, Colleen H. writes, ?MyProMovers was fantastic in helping me move from my apartment to a storage unit. From the moment I engaged them, Daniel was fantastic and answered all of my questions. He also checked in on me the day of my move. I had forgotten my apartment keys in the morning but the team at MyProMovers was very flexible with my start time. They were expert packers and were able to pack up all my furniture and boxes in less than two hours. They also moved all of my things into the storage unit so quickly as well. The team that was sent to help me move was so friendly and answered all my questions. I look forward to working with them again when I move from my storage unit back to an apartment. I would highly recommend them to anyone moving in the DC area.?

More information about MyProMovers and their services can be found at their website. The company encourages customers to get in touch with their team via the contact form on their website. Alternatively, interested parties can contact Tursun Alkau directly either via phone or email. MyProMovers also have a social media presence and can be found on both Facebook and Instagram, where they share photos, videos

and more with their community.
