

Xpress Exterior Design: Baltimore Roofing Company Announces Expansion of Roof Repair Division

December 23, 2021

December 23, 2021 -
Baltimore, Maryland - Xpress Exterior Design: Baltimore Roofing Company has just announced the expansion of its roof repair division. It?s all part of the company?s efforts to continually strive to provide the most responsive roofing and exterior repair services. This new division will allow Xpress Exterior Design: Baltimore Roofing Company to better serve the Baltimore, Maryland metropolitan community. This includes servicing neighborhoods like Inner Harbor, Downtown Baltimore, Fells Point, Federal Hill, Hampden, Canton, Patterson Park, Brooklyn, Mount Vernon, Roland Park, Bayview, Harbor East, Pigtown, Locust Point, and beyond.

Some may wonder why a company that specializes in roof repair may choose to expand before the winter but unlike most roofing companies, this roofing contractor is there for its customers' repair needs all year round. Evidence of that is the company is currently busy scheduling what the company calls its $123 Missing Shingle Roof-Tune Up Program. A company representative says, ?With winter approaching, cold weather and inclement weather come along with it. From snow, freezing rain, windstorms, and ice, the roof is on the front lines. Full roof replacements become trickier in the winter as asphalt shingles cannot always seal properly. This is why many people push off getting their roofs replaced until spring. However, just because it

is cold, doesn't mean that storms can't cause damage and leaks.?

The company representative went on to say that leaks during the winter can cause costly damage to a home's interior or become emergencies that can't be pushed off until spring. They at Xpress Exterior Design: Baltimore Roofing Company fully realize the impact of this and that?s why a customer will be able to reach them on the phone even during the harsh winter months. With their many years of experience, the techs at the company have developed several techniques that they can use which allows them to make minor roofing repairs during the colder months and put temporary fixes on bigger roofing problems until they can be further addressed when the weather warms up. That way small leaks don?t have a chance to grow into bigger leaks that threaten a home or commercial building's structure and contents. He pointed out that their $123 Missing Shingle Roof-Tune Up Program is unique for their area. Xpress Exterior Design decided to offer this special service to provide affordable and accessible roof repairs for anyone that needs them this holiday season. This roof tune-up program includes the nailing down of up to 6 shingles and a full, detailed roofing inspection. That inspection will be followed up with a comprehensive report on the current condition of the home or business owner?s roof. More on this recent roof repair expansion and how the company can expertly handle storm damage restoration and repairs can be seen in a recent press release here at https://www.pressadvantage.com/story/47968-xpress-exterior-design-baltimore-roofing-company-expands-storm-damage-restoration-division.

Whether taking on a large roof replacement or helping someone with smaller repair projects, the skilled and customer service-oriented techs at Xpress Exterior Design: Baltimore Roofing Company are always up to the task. Barry Rodgers proclaimed, ?Logan assisted me on getting a new roof on my parent's home. Excellent communication and customer service throughout. He made it so simple and easy for us. Took the time to answer all my questions and concerns. My new roof was completed in a day and it simply looks amazing. 5-star roofers in Baltimore!? Harry Hansen stated, ?We had a repair we needed to be done on a floor transition between two rooms. Since the job was small, we had a hard time finding anyone who wanted to do the work. Xpress Exterior Design: Baltimore Roofing Company was willing to take on that minor project for us - and they were polite, timely, and professional. We certainly will have larger projects around our home in the future and we will not hesitate to contact them first. Thank you!?

Those that would like more information on the company?s residential or commercial roof repairs, gutter installations, siding repair, and window replacement services can get in touch with them by phone, email, or by completing the no-charge roof inspection form that can be found on their website.
