After a successful December webinar discussing sexual assault and legal options for victims, Missouri child sexual abuse lawyer, Reed Martens is hosting a second webinar in January specifically discussing child sexual assault.

The informative webinar will be held on January 13, 2022, at 6:30 p.m. EST via Zoom.

"Child abuse is unfortunately not reported as often as it should be. Children may not know they can speak out about the event, they may be nervous they will get in trouble or are afraid to get their attacker in trouble. By speaking about child sexual abuse, we hope to shed a light on the importance of speaking out. Assault can happen at church, in school, or even by coaches in after-school sports," Martens explains.

"In Missouri, there is a statute of limitations for sexual assault as a child," Martens continues. "In this upcoming webinar we will be discussing these as well as making time to answer questions you may have."
