

## **The World's First Learn University In Phoenix, Arizona**

*November 10, 2015*

November 10, 2015 - PRESSADVANTAGE -

Phoenix, Arizona: Learn University Nov 6th, 7th and 8th 2015 The World's First Learn University In Phoenix, Arizona.

A lot can be learned about the Internet and marketing from someone who in 1996, turned \$1.83 in his pocket and no experience into a multi-million dollar international business, that has done business in over 100 countries globally. Internet Strategist and Marketing Authority, Armand Morin grew his live training called "Big Seminar" to legendary status. It was one of the biggest Internet marketing events in history and is responsible for training more people in the aspects of Internet Marketing than any other event in the world. After many years of success, Big Seminar officially ended in 2010 but not without requests for more. Unfortunately there has not been another Big Seminar and neither will there be. However, Armand and his mastermind of world-class experts and friends, always looking to stay on top and ahead of the game, have finally put together what's being called Learn University.

When asked about Learn University Armand says, "If you don't build your dreams, someone will hire you to build theirs."

The lineup of coaches, speaker and trainers and their topics are as follows.

Russell Brunson ? Create High Profit Funnels

Mike Filsaime ? Use Webinars For High End Profits

James Malinchak ? Get Paid To Speak

E. Brain Rose ? Become Expert Famous

Matt Bacak ? Build a Massive Email List

Greg Cesar ? The Way of Niche Marketing

Anik Singal ? Build a Huge Internet Business

Ty Cohen ? Create a 6 Figure Income on Amazon

Chris Farrell ? Learn The Secrets To Membership Sites

Armand Morin ? Advanced Marketing Strategies

As the saying goes, "birds of a feather flock together." So of course with such a world-class, power house lineup of experts you can expect to see others in attendance. Although he is not training at this particular event, Poet Woods had this to say about Learn University,

"Learn University is going to be a life changing event. While creating a new 7-day accelerated personal & business development advanced NLP interactive inspirational music system called III Plus IV Armand notified me about the event. Experience shows, the exponential growth that comes from these synergetic masterminds are immeasurable."

Napoleon Hill's, The Laws of success defines the mastermind as, "A mind that is developed through the harmonious co-operation of two or more people who ally themselves for the purpose of accomplishing any given task." Mr. Hill expounds, "Each person in the group becomes vested with the power to contact with and gather knowledge through the "subconscious" minds of all the other members of the group. This power becomes immediately noticeable, evidencing itself in the form of a more vivid imagination and the consciousness of what appears to be a sixth sense. It is through this sixth sense that new ideas will "flash" into the mind. If the group has met for the purpose of discussing a given subject, ideas concerning that subject will come into the minds of all present. These ideas take the nature and form of the subject dominating the

mind of the individual. The minds of those participating in the "master mind" become as magnets, attracting ideas and thought stimuli of the most highly organized and practical nature??

Everything from the environment being conducive to accelerated growth to the opportunity to network with like-minded people is all part of a strategic design. Based on the amount of success stories that came out of the past Big Seminar events, it would seem that many of tomorrows most successfully marketers are also likely to blaze trails coming out of Learn University.
