

## **Pro Lawn Landscape Is Offering Lawn Care Maintenance And Servicing In Northeast Oklahoma**

*January 17, 2022*

January 17, 2022 - PRESSADVANTAGE -

Pro Lawn Landscape LLC is offering a range of landscape maintenance services for commercial property owners in Northeast Oklahoma. Readers can find out more about the company's commercial landscaping services by heading over to the link: <https://prolawlandscape.net/services/commercial/>.

Commercial properties have to achieve clinical perfection in their aesthetics to appeal to their discerning guests and clients while keeping the cost of upkeep within the owner's budget. This is a difficult balance to achieve as, depending on the intended use of the property, a regular landscape can be subject to a lot of foot traffic causing great wear and tear which consequently means that more money is required to restore and fix the damage. Since commercial properties usually have a fixed budget set aside for maintenance, it becomes crucial to hire contractors who do good work the first time, every time. Commercial properties also operate on a strict schedule that they have to keep sacred as they are usually booked in advance for months on end. This means that every agreed-upon deadline for repairs or renovations has to be met down to the second, to make space for the next batch of guests who are set to arrive.

Thankfully, properties that use their premises for business in Northeast Oklahoma can rely on the services of

Pro Lawn Landscape LLC who deliver excellent work quality at affordable prices with timeliness and professionalism. The company has been serving Northeast Oklahoma since 1999. It is family-owned and operated, ensuring personalized and warm service to all of its clients. Pro Lawn Landscape LLC was recognized for its exceptional work quality by the Tahlequah Nasturtium Garden Club in August 2011. It also received the Award for Landscape Excellence for the pleasing, colorful landscape in front of its office.

The company's commercial landscape maintenance services include mowing turf, monofilament trimming, mechanical edging, mowing clean-up, shrub bed maintenance, shrub trimming, tree trimming, weed control and fertilization, leaf removal, spraying weeds in cracks, litter control, mulching, annual flower maintenance, irrigation system installation, monitoring, and repair, monthly blowing of hard surfaces, and more. The company's other services include flea/tick control, perimeter pest control, and mosquito control. The company provides all of its services as needed by the client based on a 12-month contract, giving the clients the peace of mind that their lawn care and landscaping needs are taken care of for the whole year. The company also offers free estimates to prospective clients who want to gauge whether its services are right for their needs.

Trey Scarsdale, the owner of Pro Lawn Landscape LLC, talks about what makes his company unique by saying, "I was born and raised in the Sooner State and I have loved every moment of it. I care about the beauty of this great state and I have made it my life's mission to help homeowners and businesses enjoy the fruits of the investments that they have made here. Today, I have assembled a crew that cares deeply about the work that we do and strives to deliver top-notch results on every job site that we visit. We are fully committed to helping make your lawn the best it can be through the use of safe, industry-standard products that solve your problem while doing absolutely no damage to the natural landscape and without endangering the health of the property's residents or guests. I draw from my over 30 years of experience in chemical lawn care and pest control to give your property the luxurious treatment that it deserves. If you own a home or commercial property in Northeast Oklahoma, you cannot go wrong by calling Pro Lawn Landscape LLC to take care of your landscaping and lawn care needs."
