

Singapore Digital Marketing Agency Awarded New SEO Contract

January 10, 2022

January 10, 2022 - PRESSADVANTAGE -

Singapore based Outrankco is pleased to announce that they have been awarded a 12-month SEO contract from a local counseling service centre. Over this period, the agency will be responsible for improving the counseling service's website ranking on the Google search engine results page. Outrankco is an SEO specialist with a wealth of experience pushing their clients to the top of search results pages for associated terms, and the team looks forward to applying their skills on behalf of a service that supports their community's mental health and wellness.

SEO, or Search Engine Organisation, is the practice of refining a business' online presence (most often their website) in order to ensure they rank near or at the top of a results page when a specific term is searched. For instance, a Google user may input words or phrases that include 'depression,' 'mental health,' 'marriage trouble' and so on. Depending on which fields the centre specialises in and the kind of patients they want to focus on, Outrankco can adjust their website on both the front and backend to make it more likely for Google to consider the client relevant to such searches. This is one aspect of search engine organisation.

Those interested in exploring what SEO has to offer should also be aware that Google uses an algorithm to determine a website's search results ranking based on a variety of factors. In addition to their content, for instance, it will take user convenience and experience into account. Online users expect web pages to load without delay, and so does Google, so pages that load faster are likely to receive a better ranking. A website's average load time can be improved by utilising better code, and Outrankco adds that their team can add to this advantage by ensuring the code used is more legible to Google's bots. Notably, the user's online experience must be comparable no matter what platform they use, including desktop, mobile and so on.

Fortunately, Outrankco has long known what it takes to push SEO to its limits, and their team is able to work with any client to achieve the outcome they are looking for. Client reviews also serve to illustrate that Outrankco's approach to customer service is well above what many have come to expect from others in the field. The agency makes it a priority to build relationships with their clients at every possible opportunity. They also understand that each client's time is valuable, so every interaction is conducted to the highest professional standards.

Sherry E. touches on this aspect of the company's exemplary service in their 5-Star Google review, sharing that, "Few months back, I signed up for the SEO audit and consultation service with Outrankco. Unlike other SEO agencies who gave me a template audit report that can be generated online, Chris sat down and thoroughly went through my website, identifying and giving suggestions on how and what I can do to improve the overall ranking of my website. Chris has shown professionalism and patience when answering all my queries. And now, I'm a happy customer of Outrankco. Thank you, team!"

Mely L. has similar comments on the company's work, stating that, "After a lot of searching and deliberation, I am happy to say that I have found the SEO service for me. Outrankco is not only professional but they are attentive and helpful. After browsing their website, I contacted them for a consultation on my situation, and Hanwei is happy to help me out. Not once did he make me feel like an inconvenience or bother him with too many inquiries. Nowadays customer service is hard to come by, and Hanwei goes above-and-beyond what's expected ? not just answering my question but walking me through every step, which made the entire campaign completely seamless."

Businesses looking for more information on SEO, keywords, website optimization and so on are invited to contact Chris Tan of Outrankco to schedule a consultation. The agency is always eager to help their community connect with their audiences online. Their expertise extends to a number of areas, including Search Engine Marketing (or pay-per-click), web design and development, SEO and more. Their website can be found at: <https://outrankco.sg/>.
