To encourage and motivate more local residents to fulfil their new year resolutions, Verum Cosmetic Dentists are offering several incentives. To start with, the initial consultation to assess the suitability of an Invisalign candidate is provided without any charge. This gives the Invisalign prospect the opportunity to appraise if they would be comfortable about receiving their treatment with Verum Cosmetic Dentists.

It is also possible to have a 3D scan with an iTero digital scanner undertaken during the consultation. This helps to generate a computer image that shows how the patient?s smile would look like after completing the Invisalign treatment. From experience, the outcome smile photo helps an individual decide more self-confidently about going ahead with the Invisalign teeth straightening procedure.

Prospect Invisalign candidates are welcome to contact the dental surgery for advice and help on issues related to Invisalign. Further information can also be received by visiting the private dental clinic?s website: https://verumcosmeticdentists.co.uk/orthodontic/invisalign.

Another nice incentive that Verum Cosmetic Dentists are giving to new patients starting an Invisalign treatment is complementary teeth whitening at the end of the teeth straightening treatment. This is a good addition as it gives the coveted brightness to a straight and healthy smile.

Clients of Verum Cosmetic Dentists receiving Invisalign treatment have left glowing reviews about their experience on Google. Mary B. wrote on Google: ?Just completed my treatment and couldn?t be more impressed. I was treated so professionally the process was completed pain free from start to finish the staff were second to none. My appointments were prompt and always on time. The process was explained and the end result was a spectacular transformation. I cannot recommend more highly. There was no rush for payments until completion of treatment.
