Kennected 2021 Reviews Illustrate Rapid Growth

January 27, 2022

Indianapolis, Indiana - January 27, 2022 -
Indianapolis, IN based Kennected is pleased to announce that 2021 was an excellent year for the company. In their end-of-year review, Kennected found that the year represented a period of immense growth, with many talented individuals joining the company?s main office in the United States and across the world. The company is committed to maintaining this momentum, and the results of their 2021 review show that Kennected is likely to continue to see great success in 2022 and beyond.

Over 2021, the Kennected team grew to over 50 in house staff on top of another 20 across the United States and the rest of the world. To date, Kennected has helped over 16,000 entrepreneurs and sales people accomplish more in less time using advanced technology that automates mundane tasks (such as manually connecting with other entities on LinkedIn along with making videos more engaging with the new Kennected Video software). Kennected also made the Inc 5000 list in 2021, which is a remarkable accomplishment for a company that is this young. Kennected's customer growth and the growth of their staff are both accomplishments that the company is very proud of, and 2022 shows no signs of being any different.

The company?s video sales software makes doing business a lot easier and more efficient by automating mundane processes that would normally require an actual human being to sit down and manually perform a series of repetitive tasks. Manual outreach and cold calling are two examples of such tasks that many companies normally have to commit personnel time to. Fortunately, Kennected?s software can now automate this to an extensive degree.

?Tired of the tedious manual outreach and cold calling?? asks Kennected. ?Look no further! Prospecting has never been easier than it is with Kennected. Our LinkedIn Automation platform is easy to use and affordable. With over 700 million users worldwide, there?s no better place to network and find your target audience than on LinkedIn. Kennected can automate your outreach for you with personalized, hyper-targeted messages that are built to strike up meaningful conversations. Send out up to 100 new connection requests each day with automated follow-up messages after the person accepts.? Those interested are welcome to reach out to the team to learn more about the Kennected video sales software today.

The platform makes it a lot easier to connect, chat and collaborate with customers or peers without having to reach out to them on an individual basis. Once connections respond to the automated messages sent by Kennected, the sequence stops and direct, personal communication begins. From here, the user can take steps to get to know their new connection better which helps to foster a good business relationship in the long run.

Many have used Kennected to build connections and thus their businesses. From real estate agencies to entrepreneurs, Kennected has laid an effective foundation for countless businesses to flourish on. Many have also left great reviews of the platform online.

A Realtor with Keller Williams, Glenn Cunningham says, ?At the time I started using Kennected, I had less than 60 connections on LinkedIn. Since then that has grown to almost 2,000 connections. I have one house under contract, and I have to buyers who I am the buyer?s agent on. If you are in Real Estate or any business where you need to generate leads, you should check out Kennected. It has certainly changed my business. It has added an entire stream of revenue to my business. Thanks, guys!?

Another review from Social X co-founder Aaron Platt says, ?We were trying to figure out how to use LinkedIn more efficiently. We wanted to generate leads and connect with other high net worth individuals. We came across Kennected, and we jumped on a call with them. We built a LinkedIn group of up to 650 members in two months! During the onboarding, they helped us with our scripts, training and best practices on how to leverage their LinkedIn automation platform. Our Virtual Assistants run our accounts for us. Using Kennected will help you generate leads for your business! Kennected also helps us data mine, by taking users name, email etc. into a CRM, so we can build our email list and text message list.?
