WasteAway Dumpster Service Provides Reliable Dumpster Rentals in Niagara Falls, NY

January 10, 2022

January 10, 2022 - PRESSADVANTAGE -

Buffalo-based dumpster rental company, WasteAway Dumpster Service now provides reliable dumpster rentals in Niagara Falls and various other cities in both Niagara and Erie counties. The company announced that they now service businesses, contractors and homeowners in Niagara Falls, in a recent release where Nick, the company's owner and operator spoke about the dumpster rental services the company offers in New York.

Besides Niagara Falls and Buffalo, WasteAway Dumpster Service also provides affordable, reliable waste management services to customers in Lockport, North Tonawanda, Tonawanda, Williamsville, Wheatfield and Clarence. Speaking about the company's service areas, Nick also mentioned that they were not only limited to these locations and that they deliver roll off rentals from time to time, to homeowners or commercial renters outside their service area.

Nick added that the company often makes special arrangements in costs and delivery to accommodate the

needs of renters out of their service area and he also mentioned that interested renters can simply call the company directly for free consultation or inquire online. WasteAway Dumpster Service may charge a service fee for delivery depending on the distance of a customer's location.

WasteAway Dumpster Service appears to offer roll-off containers for use in removal and disposal of waste from quite a large variety of projects. From small residential projects, large commercial projects and construction projects; the company accommodates most types of junk and waste produced in such projects. They also offer other services including; curbside pick-ups, single item junk pick-ups and junk removal services. Nick also added that the company had invested in Heavy equipment and was able to provide unique services such as skid-steer services, concrete removal services, in-ground pool removal services and even Bobcat services in Niagara Falls.

The company offers a versatile list of roll-off dumpster sizes which include; 8-yard dumpsters, 15-yard dumpsters and 20-yard dumpsters rentals all priced based on their capacity to haul away waste as well as the rental period a customer rents the container for. They offer their 8-yard dumpsters at \$300 and their 15-yard dumpster rentals at \$375, both for a 1-5 day rental and their 20-yard dumpster rentals at \$395 for a 1-7 day rental. They allow unit rent extensions at \$10 per day, charged for all additional days, and they also have a \$85 per additional ton overage fee, that they charge customers for weight over the 1-tonnage allowed in a rental.

The company charges \$85 for a single item pick-up and disposal. Nick added that for all other unique waste removal services, customers could inquire online or call the company directly for pricing, considering the nature of the services. The company will usually provide free consultation and estimates for all other services including; skid-steer service, Bobcat service, curbside pick-ups, in-ground pool removal and concrete removal.

WasteAway Dumpster Service is open Monday to Saturday, from 7.00 AM to 7.00 PM. While they allow in-person visits with social distancing, hand sanitizing and other Covid-19 safety measures; they also offer free online and over the phone consultations, accept credit cards and have a 24-hour online booking service that renters can access at all times.

Any homeowner or business looking to rent a reliable dumpster rental in Niagara Falls or any other of the services offered by WasteAway Dumpster Service can find more information on their website at <https://www.wasteawaywny.com/dumpster-rental-niagara-falls-ny/> or by contacting the company directly using the contact details below.
