

Coccyx Seat Cushion To Be Featured At Upcoming Symposiums

November 05, 2015

November 05, 2015 - PRESSADVANTAGE -

H&W Quality Products, a company which has been created with the goals of providing consumers with healthy living solutions, is to be featured in a number of upcoming symposiums due to the success of their product, the Coccyx Seat Cushion. The cushion, seen here at <http://www.amazon.com/dp/B00YI4KH9I>, provides relief from pain and discomfort caused by back and joint problems, allowing individuals to perform everyday activities, such as sitting at the kitchen table or sitting in an office chair, with ease.

The upcoming symposiums in which the cushion will be highlighted include the 10th International Trauma Conference in London, England, The Young Adult Hip Joint Preservation Course 2015 in Staffordshire, England, and the American Association of Hip and Knee Surgeons 25th Annual Meeting 2015 in Dallas, Texas. These are well respected events within the medical community, and H&W Quality Products, found online at <http://www.hwqualityproducts.com>, have been candid in their enthusiasm in being involved. These symposiums will all be taking place throughout the month of November, with some being weekend-long events.

The different symposiums, which the seat cushion will be displayed and presented at, vary in materials and the subject matter being covered. Some, like the American Association of Hip and Knee Surgeons 25th Annual Meeting 2015, will offer fifty-nine different podium presentations and some two hundred posters. The 10th International Trauma Conference, on the other hand, will be offering workshops and a number of guest speakers in alternative fields. Both symposiums will provide those in attendance with information on how the Coccyx Seat Cushion can make a difference in the lives of those who suffer from back and hip pain.

The effectiveness of the seat cushion has been observed by customers. For example, Betty Mareda says, "Without getting too detailed, my friend is having painful sitting issues due to a cancerous tumor. I wanted to try to help her in some small way. After looking at some of the different options, I decided on your cushion. I chose the one day shipping and she did, indeed, receive it the next day. Upon receiving it, she immediately began using it. I began to receive texts praising its virtues each time she tried it in a new location. She reported that she had not felt that personally happy with her body in a long time."

H&W Quality Products has released a statement regarding their excitement to be involved in the conferences, and they invite all those who will be attending to try the seat cushion for themselves. The company also encourages all current and potential customers of the cushion to follow them through their social media account at https://www.facebook.com/HWQualityProducts/?ref=aymt_homepage_panel. Here, individuals can view past and present reviews and ratings of the Coccyx cushion, as well as stay up to date on new products, promotions, and other events, which H&W Quality Products will be involved with in the foreseeable future.
