

Crown Heights, Brooklyn Personal Injury Attorney Samantha Kucher Discusses How a Personal Injury Lawyer Might Help

January 12, 2022

January 12, 2022 -
Crown Heights, Brooklyn - Personal Injury Attorney Samantha Kucher releases a new article that talks about situations where a personal injury lawyer may be able to help. Some of the situations she mentioned include car accidents, slip and falls, nursing home negligence, wrongful death, and more.

The Crown Heights, Brooklyn personal injury attorney mentions that in New York, almost one in 5 automobile collisions leads to an injury. She also says, ?Every year, countless residents are involved due to the irresponsible acts of others.?

According to the personal injury attorney, ?While some car accident injuries might only need small medical intervention and a short period of recovery time, some are physically and economically devastating to an accident victim and their loved ones. A lot of these incidents leave victims with severe injuries, massive medical costs, time away from work, and, in the most catastrophic cases, life-changing injuries or even

deaths.?

Attorney Samantha Kucher also says that it's essential for car accident victims to get a competent attorney on their side, particularly if the incident was due to negligence. The proper compensation due to the damage the victim has suffered must be the primary goal of the attorney.

The personal injury lawyer explains in the article that slip and falls are among the most common causes of personal injury. They are often associated with serious injuries, especially if they involve elderly children or adults.

The lawyer says, ?When a severe fall takes place on another party?s residential or commercial property, due to negligence on part of the owner, the owner of that home can be held responsible for any injuries that were sustained.?

In addition to the above, the personal injury attorney also discusses nursing home violence in the article. She mentions that in the United States, there are approximately 1.4 million residents in nursing homes. But, abuse in nursing homes and neglect are also increasing. The lawyer also adds that these kinds of abuse can be sued and the victim can receive the compensation they deserve.

Lastly, the Crown Heights, Brooklyn lawyer adds that a personal injury attorney can also help with a wrongful death case. She talks about how emotionally stressful a loved one?s death can be, especially if it was caused by the negligence of someone else. The attorney mentions that ?A wrongful death claim seeks a financial award for damages from the at-fault party in order to compensate family members for their losses resulting from the death of their loved one.?
