Dr. Valerie Walton is the leading chiropractor in Lithia Springs, who has been treating accident injury victims for many years.

Dr. Walton advises victims to see a personal injury lawyer ?if someone else's negligence caused your accident,? adding ?filing a personal injury claim can seem impossible, especially when you're nursing injuries.? The experienced Lithia Springs car accident doctor suggests that victims should seek an experienced chiropractor for the timely diagnosis and evaluation of injuries before everything else.

The top Lithia Springs car accident chiropractors at Arrowhead Clinic focus on helping victims make a complete recovery. They are aware of the importance of documentation of injuries that can play a big role in maximizing the injury settlement.

?As soon as you've visited a chiropractor and your treatments have begun, you should contact a personal injury lawyer to file your personal injury claim,? advises Dr. Walton. Top accident treatment doctors at Arrowhead Clinic can refer victims to an experienced attorney who is an expert in handling insurance companies and compensation claims on behalf of the victim. Their goal is to help the victim get a fair settlement, states the Lithia Springs chiropractor, adding, ?When you hire a personal injury lawyer, your insurance company will take your case seriously.?

Dr. Walton cautions accident victims against trying to handle the aftermath of a car accident by themselves, adding that insurance companies are businesses and need to make a profit. Their mission is to pay as little to the victim as possible. In doing so, they will go to any extent to reduce the compensation claim. The Lithia Springs doctor suggests victims should only discuss their accident with the doctor and injury lawyer and not post anything about it on social media until the claim is resolved.
