

Auto Injury Chiropractor Services Offered in Beaverton

January 31, 2022

Beaverton, Oregon - January 31, 2022 -

True Potential Chiropractic, a clinic in Beaverton, OR, wants to announce that they are offering the services of an auto injury chiropractor Beaverton residents can depend on. They are ready to help people who have suffered injuries resulting from an auto accident or car crash. Injuries that may occur as a result of car crash are whiplash and concussion. Whether the patient is suffering from a new or an old injury caused by a car accident, the professionals at True Potential Chiropractic may be able to offer help.

Whiplash or hyperextension / hyperflexion injuries cause a person to suffer for a lifetime if it is not diagnosed or corrected as early as possible. To make a proper diagnosis, a complete exam must be performed, including specialized x-rays to ensure long-term recovery. With regards to concussion, many specialists think that it only occurs in the head. However, that is only partly true. Concussions can also occur in the neck because the neck is always involved in a hyperflexion / hyperextension injury. While they are correcting the problem, the professionals at True Potential Chiropractic will conduct concussion re-assessments regularly to document improvement and use a professional survey that was cited and peer-reviewed in more than 40 papers.

Evaluating whiplash and how it can damage the spine is difficult. This is because there are hidden injuries that the examiner may miss if the exam performed is not complete. They use on-site digital x-ray equipment and comply with AMA guidelines to examine ligament damage related to whiplash. Furthermore, their studies are promptly examined and reviewed by their chiropractic doctor and a board certified radiologist.

Their licensed massage therapists (LMTs) will also play a vital role in the patient's healing process. This is because all of their LMTs have been properly trained and are specialized in the rehabilitation of soft tissue injury. Oregon state law allows necessary and reasonable treatment by an LMT when prescribed by a chiropractic physician.

Meanwhile, for those who are looking for a chiropractor for back pain treatment near Beaverton, they are also

ready to offer their services. A professional chiropractor may be able to provide relief for those who are suffering from lower back pain. Lower back pain is usually caused by strain, strenuous exercises, lifting heavy weights, and more. The chiropractor will use specific chiropractic adjustment, which involves the application of pressure to the spine or other parts of the body to reduce pain and enhance the patient's movement. Other methods may also be used, such as professional massage therapy, in-house corrective exercises and comfortable and effective stretch therapy with one of their stretch pros.

Established in 2013, True Potential Chiropractic has set as its goal the provision of lifestyle care for everyone. They are among the leading providers of family corrective care and wellness in the Pacific Northwest. Founder Dr. Bryen Bell is focused on offering non-drug solutions as the first choice in health care. He and his family had migrated to the Pacific Northwest during the summer of 2013 and it was during that year that he founded the completely computerized and advanced corrective care family wellness center in Beaverton, OR. This is a family and sports rehab chiropractic practice that specializes on health and wellness by focusing on maintenance and prevention, rather than acting only after the occurrence of a health crisis, for instance, pain, disease, or disability. He bases his philosophy on the six laws of the human body, which are: diet, exercise, rest, mindset, stress management, and alignment. Dr. Bell has a chiropractic degree (D.C.) and a bachelor of science degree in human biology that he earned from the Cleveland Chiropractic College in Los Angeles.

When requiring a chiropractor near me Portland residents and those in neighboring areas can check out the True Potential Chiropractic website, or contact them on the telephone or through email. They are open from 9:00 am to 12:00 pm and then from 3:00 pm to 6:00 pm on Mondays, Tuesdays, and Thursdays; from 3:00 pm to 6:00 pm on Wednesdays; and from 9:00 am to 11:00 am on Saturdays.
