

Brooklyn Personal Injury Lawyer Samantha Kucher Explains How A Personal Injury Attorney May Help

January 28, 2022

January 28, 2022 - PRESSADVANTAGE -

Brooklyn personal injury lawyer Samantha Kucher (<https://www.rrklawgroup.com/brooklyn-personal-injury-attorney/>) discusses how a personal injury attorney may be able to help. The lawyer mentions that there are thousands of Brooklyn residents that are injured in accidents caused by someone else's negligence. This can be car accidents, She also adds that of all New York boroughs, Brooklyn sees the highest number of injury-causing accidents.

According to the Brooklyn personal injury lawyer, "Nearly one in five car accidents in New York City results in an injury. In 2020, despite a decline in car crashes as a whole, the percentage of those causing injuries increased. In that year alone, Brooklyn reported the largest share of those traffic accidents with 35,245."

The lawyer explains that there are a lot of common causes for car accidents. These reasons include distracted driving, impaired driving, speeding, ignoring traffic signs and signals, following another car too closely, improper lane changes, failing to yield, unsafe backing, and unsafe turns.

Attorney Samantha Kucher also discusses truck accidents in the new blog post. She says that navigating Brooklyn's busy streets can be tricky, especially when large trucks are added to the mix. There is also a bigger chance of fatality for someone in a smaller vehicle if they collide with a large truck.

Aside from the aforementioned, the lawyer also mentions construction accidents. "The construction industry is one of the most dangerous industries in the United States. Because of that, New York has some of the most stringent labor laws protecting workers and others who are injured in construction accidents in Brooklyn," attorney Kucher says.

Additionally, the lawyer discusses that most injuries from construction sites are rarely minor. These injuries are also often caused by the negligence of the property owner or the general contractor. Most construction workers are protected by workers' compensation, however, there may be limits to what the insurance may be able to cover.

Furthermore, attorney Kucher discusses slip and fall accidents. The attorney mentions that slip and fall accidents are also some of the most common injury-causing accidents in Brooklyn, especially if they involve children or the elderly. Although most slip and fall injuries are covered by insurance, insurance companies are very reluctant to pay these types of claims.

Lastly, the lawyer adds that if someone is injured in an accident caused by someone else's negligence, they have the right to seek the guidance of a skilled Brooklyn personal injury lawyer. Getting the assistance of a skilled Brooklyn personal injury lawyer may be able to make a remarkable difference in the ability of an injury victim to get fairly compensated.
