Dumpster Rental Gaithersburg, MD Company Roll Off On The Go Rentals Release Customer Video Review

January 31, 2022

Rockville, Maryland - January 31, 2022 -
Dumpster rental company, Roll Off On The Go Rentals, has release a video of a review from a recent customer. The video details the customer?s experience with the services rendered by Roll Off On The Go Rentals. In the review, the customer pointed out they had questions about the dumpsters and they needed an extension. The customer further stated in the review they were able to get someone on the phone instead of an answering machine to answer their questions. The reviewer was very satisfied with the service and rated the dumpster rental service provider with five stars. Five stars is the highest rating a company can receive on their Google Business Profile page.

Company owner, Edgar Saucedo stated, ?We always welcome feedback from our customers and are very happy this client gave us the opportunity to demonstrate our excellent customer service. We look forward to working with other home and business owners to show them the same high quality dumpster rental service this customer, as well as many others, have experienced with our company.?

The complete video can be viewed on the company?s Youtube channel by visiting this link: https://www.youtube.com/watch?v=TF61Y27oVoc

When considering to rent a dumpster, it?s important to know beforehand exactly what can?t be disposed of in them. Typically, anything hazardous to the environment or humans are against local regulations to throw in a dumpster for transport to a landfill. It is best to check with the dumpster rental company to learn more to avoid a potential fine from local governments. Roll Off On The Go Rentals offers free consultations to those who

need it to help with choosing the right size dumpster for their project to providing guidance on the proper disposal of certain materials.

A dumpster rental is a good way to do things around the house, like a room renovation. As it turns out however, many people feel dumpsters are huge bins that are only for big construction companies and their job sites. It is true that many large companies that produce a lot of waste like apartments and schools have one or more dumpsters to keep their waste under control. However, because they come in different sizes, many people will find that they are a great way to get rid of old carpet or take down a wall that is dividing two rooms to make one bigger room.

The waste from home renovation projects is just thrown into the waste bin and left for the dumpster rental company to properly dispose of, which is what they do. When the homeowner or customer tells the dumpster rental company that the dumpster is full, the company will come and take the dumpster to the landfill. The dumpster can then be brought back to be used again until the job is done. This kind of service can be a big help to people who do not need to rent a dumpster very often.
