

Independent Cannabis Dispensaries To Offer Online Sales In Alberta, CA, Starting March 2022

February 08, 2022

February 08, 2022 - PRESSADVANTAGE -

Dank Cannabis will start the online sales and delivery of marijuana products on March 8, 2022, from their Ogden-based dispensary.

Dank Cannabis, the top recreational cannabis dispensary in Calgary, is able to legally start this service with the blessing from the provisions in Bill 80, titled the Red Tape Reduction Implementation Act, 2021 (No. 2), that was passed by the Legislative Assembly of Alberta on December 8, 2021. The bill will come into force on March 8, 2022, opening the door for private-sector cannabis eCommerce in Alberta, Canada.

Prior to the passage of the bill, though brick and mortar retail stores were allowed to sell marijuana products, online sales and delivery in Alberta were controlled by the AGLC (Alberta Liquor, Gaming, and Cannabis), a government-controlled wholesaler and regulator. The organization used to make its sales through the website AlbertaCannabis.org. The government's new ruling has decommissioned the website and the mantle for online sales and delivery of cannabis products can now be taken up by qualifying private retailers.

There are, however, still a few restrictions on which private retailers are able to provide cannabis eCommerce and delivery in Alberta.

Dank Cannabis Dispensary has built a company and platform from the ground up that meets all the requirements and is primed to start selling its high-quality marijuana products online starting March 8, 2022. As of now, the company allows its patrons to make a selection online and then pick up the products in a few hours in person from their stores in Ogden and Calgary. Starting in March, the company can now bring the same high-quality products to their delivery service, ensuring that their customers don't have to leave their house in order to partake in their favorite pastime. The company's range of cannabis products includes flower buds, pre-rolls, vapes, concentrates, edibles, drinks, cannabidiols, accessories, seeds, and topicals. Readers can head over to the dispensary's website and regularly check it to take advantage of daily deals

and special offers.

A spokesperson for Dank Cannabis talked about the incoming paradigm shift in marijuana consumption across Alberta by saying, "The legalization of marijuana use in Calgary was already a big step towards ushering in a cannabis revolution. Apart from its pleasant and anxiety-relieving recreational uses, the often-maligned miracle herb, when used under the guided supervision of an experienced cannabis practitioner, has a lot of potential for easing pains and ailments of many different physiological systems. Evidence suggests that marijuana can be used for pain relief to deal with nerve pain, cancer-related pain, muscle spasms, fibromyalgia discomfort, systemic inflammation, and many more conditions that can cause debilitating effects on the human body. Now with the landmark ruling in Alberta, cannabis connoisseurs will be able to enjoy their marijuana from the comfort of their homes. You can pick and choose to your heart's delight on our carefully designed, feature-rich website and watch your favorite products arrive at your doorstep with no extra effort. If you have been a regular customer at Dank Cannabis, we are bringing the same quality products that you get in our physical stores to our delivery service. So make sure to head on over to our website on March 8, 2022, and be an early participant in the brand new way to enjoy marijuana in Alberta."
