

Invisalign Halesowen Dentist Offers Discount For Invisible Orthodontic Braces

February 07, 2022

Halesowen, England - February 07, 2022 - PRESSADVANTAGE -

Bhandal Dental Practice, a leading dental practice in the West Midlands UK, is offering a special discount to patients who choose invisible orthodontic braces. This offer includes clear and comfortable aligner trays that are custom made by an experienced orthodontist.

These specially designed teeth straighteners work without metal wires or brackets and can be removed when eating, brushing teeth or flossing. The Invisalign orthodontic system has been shown to provide fast treatment times, similar to traditional braces, with the added benefit that they do not require any changes in one's lifestyle.

For more information on this Invisalign special offer visit the Bhandal Dental Practices information page here: <https://bhandaldentalpractices.co.uk/invisalign-invisible-braces-halesowen/>.

Dr Raghav Kumar is a Specialist in Orthodontics at Bhandal Dental Practice and has provided the Invisalign

treatment to a large number of patients earning him the Invisalign Diamond Provider status. Hence, patients receiving an Invisalign treatment can consider themselves in safe and experienced hands with Dr Raghav Kumar.

To read more about the benefits of Invisalign, visit the following page on the Bhandal website:
<https://bhandaldentalpractices.co.uk/invisalign/>

The special Invisalign offer from Bhandal Dental Practice includes a £1000 off and complementary teeth whitening at the end of the treatment. Furthermore, Vivera retainers are provided without additional fees for patients completing the Invisalign treatment to ensure that the new smile gained is not allowed to get undone.

Another benefit that is being offered by Dr Raghav Kumar to his Invisalign patients is remote monitoring. He gives his patients a ScanBox that can be attached to smartphone. The patient can place the ScanBox over their mouth to send scans of the teeth from the comfort of their home to Dr Kumar's team. This reduces the number of visits to the clinic during the Invisalign treatment without compromising the oversight on the progress of the treatment.

Many patients have left positive reviews about their Invisalign experience at Bhandal Dental Practice. Katy R. posted the following review on Google: "Great experience! The team are so welcoming and reassuring and the end results speak for themselves. I am very happy and wouldn't hesitate to recommend Invisalign here. Thank you!"
