The lawyer mentions that a slip-and-fall accident is often serious and life-altering. If the accident was caused by the property owner?s negligence, the victim may be able to seek a claim for their injuries.

According to the Brooklyn slip and fall attorney, ?Today falls are one of the leading causes of injuries in the United States. The CDC reports that millions of people suffer injuries in fall and trip incidents each year. Although a fall accident could be inadvertent, the ones caused by the negligence of another are entirely preventable.?

The lawyer explains that premises liability accidents are accidents that occur on another person?s property due to a dangerous condition that was neglected or was not properly maintained. It may be public or private property, however, the thing that sets them apart is that negligence is a factor in the fall.

Accident attorney Samantha Kucher mentions that according to the National Floor Safety Institute, falls are the leading cause of emergency visits in the United States. Falls constitute over 8 million hospital emergency room visits each year. Especially for older adults, falls are very dangerous.

In the article, attorney Kucher explains that slip and fall cases are protected under the premises liability laws in New York. Under the premises liability law, the person who owns or is in control of the property must keep the property safe for those who use it.

Additionally, the accident lawyer explains that if someone fails to keep their property safe, the victim may have the right to hold them responsible for their injuries. The victim may also ask for compensation for the medical costs, lost wages, personal property damages, lost earning capacity, pain, and suffering.

Lastly, personal injury lawyer Samantha Kucher emphasizes how important it is to seek the help of a slip and fall lawyer if someone has been a victim of a slip and fall accident. Having an experienced lawyer may help the victim seek compensation for the injuries they suffered after the accident.
