

Dr. Mark Hickman Helps New Braunfels Residents Reverse A Vasectomy

February 14, 2022

New Braunfels, TX - February 14, 2022 -
New Braunfels, TX based Microsurgical Vasectomy Reversals by Dr. Mark Hickman would like to reach out to local residents who may be interested in reversing their vasectomy. By utilizing highly advanced equipment and bringing years of experience to every case, Dr. Hickman can quickly and safely reverse vasectomies, making it possible for his patients to have children should they decide they would like to. Having a vasectomy is a very effective way of avoiding unwanted pregnancies, but with the help of highly qualified surgeons like Dr. Hickman, this procedure need not be permanent if the patient later has a change of heart.

?Vasectomy reversals are not just for my male patients seeking an addition to their family,? Dr. Hickman says. ?With an all-inclusive cost of $3,300, reversing a vasectomy is now being used to combat the onset of male depression following the original procedure. Patients have seen a return to their more virile days and a lifting of the ?male fog.? In this procedure, Dr. Hickman performs a microsurgical repair of the vas deferens with a powerful operating microscope and fine nylon suture (much finer than a human hair). A typical repair requires 10-15 stitches. The goal is to create direct and careful alignment of the lumen of the two ends of the vas and a watertight closure for a higher success rate.?

Dr. Hickman offers two all inclusive options, both of which are very affordable. For $3,300, Dr. Hickman offers microsurgical vasectomy reversal, a process which includes local anesthesia and an oral sedative. Patients can also opt for the $4,200 offer, which is performed under IV sedation administered by a board-certified anesthesiologist. Both options are all-inclusive, and both are highly effective at vasectomy reversal. Dr. Hickman sees patients from all over Texas, Louisiana, Oklahoma and the rest of the USA, and his clinic offers a range of exclusive arrangements for out-of-town patient accommodations.

An expert in laparoscopic procedures, Dr. Mark Hickman has invented a wide range of surgical instruments over the years. He has been awarded a US patent and is recognized as a contributor to several other important, minimally invasive patents. He began his private practice in New Braunfels, TX in 1988 and became one of the early pioneers of laparoscopic surgery. He was also involved in Operation Desert Storm and served on the hospital Ship USNS Mercy. Over the course of a career that spans the better part of three decades, Dr. Hickman has performed over 1,300 vasectomy reversals and has had the honor of making countless pregnancies possible in the process. He has also corrected botched reversals with great success, leading to him being recognized as one of the most trusted vasectomy reversal professionals in the world.

?My husband and I made a road trip from MN to see Dr. Hickman for a vasectomy reversal back in 2012,? says a patient?s 5-Star Google review. ?We ran into car trouble on the way there and had to call to figure out how we?d make the surgery. He had plans the next day, but rearranged his schedule and still made time to see us!! We even needed to bring my two year old son, and one of his nurses entertained him so I could be with my husband during the surgery. The reversal went pretty smoothly, and I?m happy to say that 4 1/2 years later, my husband and I were able to naturally conceive children. I?m grateful for this team and highly recommend them!?

Another patient review says, ?Dr. Hickman and his staff are phenomenal! We couldn?t have asked for a better experience from start to delivery. We were initially given a quote of $10,000 for my husband?s reversal. So you could imagine our skepticism when we were given such a reasonably affordable price. I don?t know about you, but we certainly didn?t have 10k on hand for an out of pocket procedure. As too good to be true as it all sounded, it was true! We came in at the earlier part of 2020 and welcomed our baby girl into the world by the end of 2020. Talk about a quick turnaround. So blessed, so grateful.?

Patients looking for more information on Dr. Mark Hickman and how he can help reverse a vasectomy are welcome to visit the clinic?s official website to get started. They may also contact the clinic directly to schedule a consultation.
