

Miami SEO Geek Offers Free SEO Analysis And Recommendations From Specialist

February 24, 2022

February 24, 2022 - PRESSADVANTAGE -

Miami, Florida based Miami SEO Geek is pleased to share that it is offering free SEO analysis and recommendations from an SEO expert, Ashley Tewes. The founder and owner of the company, Tewes has been in the SEO/online marketing arena full-time for around five years, and she has already proven herself to be one of the leading SEO experts in Miami.

As Miami SEO Geek explains, SEO analysis is the process by which a website is closely examined to gain a better understanding of how well the site has been optimized to work with search engines. This is done to determine how the site can be further optimized and improved. As part of the SEO analysis process, businesses have to take a closer look at the content they have on their website to find out what keywords the websites are optimized for and how well the content performs in search engines.

Once the performance metrics have been mapped out, SEO analysis will take a look at how they affect the brand. Businesses will be able to gauge how high their content ranks for the targeted keyword, how well

content has been optimized and how this impacts traffic rates and leads and more. According to Miami SEO Geek, knowing how well a website is optimized can offer businesses greater insight into any changes they need to make. For this reason, SEO analysis is one of the most powerful tools businesses have at hand.

Miami SEO Geek is offering free SEO analysis (and recommendations based on the data), valued at \$1500, for free. All an interested party has to do is simply get in touch with Ashley Tewes via the contact form on Miami SEO Geek's website. To learn more about Miami SEO Geek's free SEO analysis and more, go here: <https://sites.google.com/view/miami-seo-geek>.

Tewes says, "I am blessed to have been able to help such amazing clients as I have, and I am very proud of the work that I do. As anyone who has worked with me will tell you, I love what I do, and it is obvious in my work."

Tewes has personally done search engine optimization for hundreds of websites, both in Miami and out, and continues to grow her portfolio with client sites as well as her own. She is dedicated to ensuring that her clients' businesses grow directly through her services. She has a bachelor's degree in Marketing from FIU and has been in the entrepreneur sector since high school.

"My services can help you make money," she asserts. "I can help you increase your business' organic traffic, and that means you have more leads, more conversions and more sales. If you decide to sell your business later, having more organic traffic can actually be considered an asset that increases the value of your company! Feel free to get in touch with me if you are looking for someone who does SEO that leads to an increase in revenue as well as changes with Google, the algorithm updates and the internet overall."

Miami SEO Geek's clients have nothing but praise for the company's work, as is made evident by the company's perfect rating on their Google My Business profile. Javier Hopkins says in his review, "They go beyond keyword analysis and content creation for SEO. They specialize in the fundamental details on the backend to help websites rank above the competition."

In another review, Michael Williams writes that they are the, "The best overall Internet marketing agency for businesses. True experts, it is refreshing to work with actual pros with invaluable knowledge and experience." Walton Joe also says in his review, "They were able to help us get some high-quality links to our company blog, which has resulted in a lot more people becoming aware of our business. We are eternally grateful for the help they have provided to us."

Anyone who is interested in learning more about Miami SEO Geek or the company's wide range of services

should visit their official website for more information. Interested parties can get in touch with the company via the contact form on their official website. Alternatively, Ashley Tewes encourages people to get in touch with her directly via phone or email. Miami SEO Geek also maintains a social media presence and can be found on Facebook, Twitter, YouTube and so on.
