

Men Can Now Reverse A Vasectomy With Dr. Mark Hickman

February 22, 2022

New Braunfels, TX - February 22, 2022 -
New Braunfels, Texas based Microsurgical Vasectomy Reversals by Dr. Mark Hickman is pleased to share that they are providing affordable vasectomy reversal as part of their services. While most of Dr. Hickman?s patients hail from Texas, Louisiana and Oklahoma, he is pleased to offer his expertise to people from all over the country.

Dr. Hickman?s core values are to provide the highest level of care at an affordable price for everyone who needs them. His clinic offers two all-inclusive affordable options. Along with the microsurgical vasectomy reversal, the $3,300 offer includes local anesthesia and an oral sedative. The $4,200 offer is performed under IV sedation and is administered by a Board Certified Anesthesiologist. The clinic assures that both microsurgical options are all-inclusive, which means there are no hidden fees.

?I have heard too many horror stories from men who have undergone this invasive procedure that often has terrible effects on their very being,? says Dr. Hickman. ?Many become distraught after experiencing their

sexual drive dwindle as a result of the procedure. These men say that their sense of wholeness and sense of well-being diminished because of it. Men also report issues such as increased sensitivity and even chronic pain in their testicles after the procedure. While it is better to have not had a vasectomy at all, it is not the end if you have had one. You can always have it reversed. We can help you, and you do not even need to worry about the cost to reverse a vasectomy. We can proudly say that we provide the most affordable vasectomy reversal in Texas.?

The clinic points out that there are pre-op requirements for all persons who are coming to the clinic for surgery. Patients will need either a negative PCR or an antigen test within one week of surgery. Alternatively, they may present a documented positive PCR or an antigen test at least 30 days prior to surgery.

Dr. Hickman has become nationally and internationally recognized in helping men through vasectomy reversals. He has 26 years of experience under his belt as a leading minimally invasive surgeon. With more than 1,300 vasectomy reversals, Dr. Hickman work has led to more pregnancies than he can count. He has ?corrected? many vasectomy reversals from other providers as well with great success. Surgical procedures and results vary widely among providers. Patients from around the world trust Dr. Hickman because of his dedication, high success rate and bedside manner.

The services provided by Dr. Mark Hickman are appreciated by couples all over the country. On the Google platform, Microsurgical Vasectomy Reversals by Dr. Mark Hickman has a stellar rating of 4.9 out of 5 Stars. Elise P. says in her review, ?We loved everything about our experience with this office, from the front office staff to the doctor. They were thorough and explained everything from start to finish. We initially were going to go with another office, but once we spoke with Pat, we got such good vibes and decided to go with them. We are very happy with our decision.?

In an excerpt from another review, Dave Wright Jr. writes, ?I cannot express my gratitude towards Dr. Hickman! My son passed away at 13, which was 12 years after my vasectomy. A couple years later, we decided we?d like to try and have children again. So after nearly 15 years of being sterile and a lot of research, we flew to Texas and met with Dr Hickman! Best decision ever! He was extremely professional and real about what to expect. The success chances were low, but nonetheless there would be a chance! Three years after the reversal, we were pregnant and couldn?t have been more excited! Six years post surgery, we have three baby boys!?
