

# Invisalign Coventry Dentist Offers Discounted Orthodontic Invisible Braces

*February 16, 2022*

February 16, 2022 -
Verum Cosmetic Dentists, a prominent cosmetic dental practice in Coventry, UK, is offering a special discount to patients who pick Invisalign invisible orthodontic braces as their teeth straightening treatment choice. This deal includes transparent and comfortable aligner trays that are custom-made under the supervision of a skilled cosmetic dentist to address a patient's teeth alignment concerns.

Because these carefully constructed teeth straighteners do not require metal wires or brackets to straighten teeth, they can be removed while eating, cleaning, or flossing. The Invisalign orthodontic system has been demonstrated to provide comparable or even faster outcomes than traditional braces, with the added benefit of not needing patients to alter their usual work or personal routines.

For more information on this Invisalign special deal, please visit the Verum Cosmetic Dentists information page at: https://verumcosmeticdentists.co.uk/invisalign/.
