Ocean Springs Metal Manufacture Announces the Re Launch of Their US Division Found in Towaco, NJ

March 03, 2022

March 03, 2022 - PRESSADVANTAGE -

Ocean Springs Metal Manufacture, Ltd. Is happy to announce that they have recently relaunched their United States sales office, located in Towaco, New Jersey. The company is a manufacturer of custom springs, metal stampings, wire forms, CNC parts, aluminum products, and mechanical assemblies . They have sales engineers and representatives who are available to assist clients in designing their springs, wire forms or stampings to comply with their product requirements. Previously represented directly by the parent company Hoi Tin, with the relaunch, the company is now represented by Ocean Metal Products in the US.

Ocean Springs Metal Manufacture, Ltd. has also hired the services of digital marketing agency JVI Mobile Marketing to assist them in reaching more potential clients after the relaunch. JVI is focused on improving the client?s online presence. They will begin by showing the client how to double their online growth. And finally, they will show their flagship program. JVI offers various services, such as: digital marketing training, SEO, reputation, consulting, lead generation, content marketing, social media, PPC, e-commerce, Facebook ads, web design, Wordpress, Shopify, coaching, online marketing, and promotions.

Ocean Springs Metal Manufacture has the capability to process oval, round, and flat wires up to 8 mm in

diameter and up to practically an unlimited length. The custom springs that they make can be found in various applications, from awning arms, battery contacts, to automotive shades to hand tools. They can offer quotes for quantities from hundreds to even millions of pieces. They have more than 300 springs machines and increasing capacity and capability will never be a problem. They can also provide secondary processes, including plating, assembly, grinding, and more in house to meet any specific requirements by clients.

For metal stampings, Ocean Springs Metal Manufacture has more than 100 stamping presses, ranging in size from 25 tons to 200 tons. They offer stampings for parts ranging from 0.5 mm to 5 mm in thickness. They have also have the capability to produce all of their toolings in-house, offering the advantage of shorter development lead times and better quality parts. They also make progressive and single-stage dies.

They produce more than 90 percent of their tooling in-house in order to minimize expenses, lead times, and to enhance the quality of their tools. They keep all of their tooling in-house to make sure that parts are in specification from the first part to one millionth part and beyond. And their CNC department, with 50 machines, is capable of producing the machined parts that client?s applications need on time and under budget. They can also help with their clients? shaft design needs, helping clients create a high quality product at a competitive price. For aluminum products, Ocean Springs Metal Manufacture has the capability to develop straight, thin-walled tubing products in-house, including the development of the assemblies that they are used in. And finally, they also offer a complete line of single and double wire hose clamps.

Founded in 1997 in Dongguan City, Guangdong Province, China, Ocean Springs Metal Manufacture, Ltd. is a manufacturer of custom springs, wire stampings, and wire forms that are fabricated to the precise measurements required by the customer. At present, they have more than 500,000 square feet of manufacturing space and over 500 employees and state of the art equipment that are used to manufacture the various products. And to make sure that the custom products will truly be in compliance with the needs of the clients, they have a dedicated staff of engineers who manage the projects from start to completion. The company is represented in the US by Ocean Metal Products. In most cases, they can offer pricing based on the client?s requirements in most cases in less than 10 working days and provide the product ex-works, FOB China, delivered to the client?s door or to any other standard Incoterm desired.

Those who are interested in the products offered by Ocean Springs Metal Manufacture, or their re-designed website can visit their website or contact them on the phone or through email.
