

# Mold Removal Service Provider in Raleigh NC Earns Another Five Star Review

*February 24, 2022*

February 24, 2022 - PRESSADVANTAGE -

Bryter Water Damage Restoration of Raleigh, NC, is proud to announce that they have earned another five star review from a customer. The customer had needed mold remediation and the situation was resolved promptly and efficiently. The water damage restoration company restores water damaged homes and properties and also provides mold inspection and removal services to ensure that homes are restored back to their original condition. Their team of experts are always ready to provide inspection and cleaning services to get rid of water and mold.

In the above mentioned five star review, Martin G. said, "This was by far the best experience I have ever had with a company like this. They were fantastic. They were courteous, prompt, and hardworking. They resolved a situation that no other company would address and had the whole situation resolved within 3 hours of first contact. I would highly recommend this group for anyone needing water, sewer or mold cleanup/mitigation." Currently, Bryter has an overall rating of 5.0 out of 5 stars on Google.

John Bryter, owner of Bryter Water Damage Restoration of Raleigh, says, "We're very grateful to our customers who have taken the time to leave us some feedback, whether good or bad. We encourage our customers to do so because it lets us know if we are on the right track with our customer service goals. Rest assured that we will always do our best to provide the service you deserve."

Mold growth often follows flooding and/or water damage in the home or property. The flooding may be caused by a storm or a leaking pipe but no matter what reason, water in the wrong places in the home can cause a lot of damage, inconvenience, and even health problems.

Bryter says, "Did you know that water can damage your property, even if it's just drywall and ceilings? When moisture meets any of these walls or ceiling boards, they start to fall apart. That will give you a headache. Bryter Restoration can deal with this quickly and effectively to give you peace of mind. And mold damage is a

common occurrence after cases of water damage or when plumbing systems in the building leak. The proliferation can be slow or sudden, but either way, Bryter Water Damage Restoration has certified AMRTs to deal with it. We are experts at understanding the lifecycle of mold.?

Meanwhile, because storm damage incidents are often unexpected and sudden, the company's Institute of Inspection Cleaning and Restoration Certification (IICRC) certified technicians are always ready to help reverse or prevent their negative effects. They use advanced moisture detection equipment and their in-depth work experience to provide their services.

The emergency service team from Bryter is very much aware that water damage in the home can cause stress and frustration in the residents. Thus, they are well-trained in the latest restoration methods in bringing the home or property back to its pre-damaged condition as quickly as possible without any inconvenience to the customer or interruption of important activities.

Bryter Water Damage Restoration was formed after their professional team has already been providing water damage remediation services for a number of years in several counties in North Carolina, including Carteret County, Horry County, Pender County, Onslow County, Brunswick County, and in various cities such as Carolina Beach, Wilmington, Moorehead, and Wrightsville Beach. The water damage suffered by homes and properties in the area was frequently due to the many storms and hurricanes that usually pass through the region. They are ready to help families restore their water damaged homes and personal belongings and to help prevent further damage to the home and any health problems that may be caused by the mold growth following water intrusion and the weakening the structural elements of the home or building by water. Since then, the company has been expanding to other cities, including Cary, NC.

People who require water damage restoration or mold removal service in Raleigh, NC, can visit the Bryter Water Damage Restoration of Raleigh website or contact them on the telephone or through email. They can be contacted 24 hours a day, from Monday to Sunday.
