

Backyard Bug Patrol Celebrates Third Year As Full Service Pest Control Company

March 01, 2022

Great Falls, Virginia - March 01, 2022 -
Great Falls, Virginia-based Backyard Bug Patrol is celebrating its third year as a full-service pest control company. Backyard Bug Patrol was established in 2010 and has strived to provide first-class pest control services to the Great Falls community ever since. Learn more about Backyard Bug Patrol at the following link: https://www.youtube.com/user/BackyardBug/videos.

John Mitchell from Backyard Bug Patrol, says, ?Shortly after we moved into Great Falls, our entire family got Lyme disease from our own backyard. We started this company to ensure that the rest of the people of Great Falls do not have to worry about such things ever again. In the years since, we have grown a lot, and we proudly continue to attend to all the Great Falls community?s needs as a full-service pest control company. We wouldn?t be where we are today without the help and appreciation of our community, and we look forward to delivering the same high standard of service that our customers expect of us for years to come.?

Backyard Bug Patrol can provide pest control services targeted at pests of all kinds, including ants, rodents,

termites, stink bugs, spiders, silverfish, crickets, and more. The company assures that there will be no pests remaining on the property once their work is done. Furthermore, and perhaps most importantly, both children and adults will be safe to carry about their daily routines without fear.

Mitchell says, ?At Backyard Bug Patrol, we know that nature is very unpredictable, and you never know what you have to deal with at any point in time. Pests are a huge factor in that unpredictability, and we are here to ensure that you do not have to worry about them. Your health, safety, and comfort always come first for us, which is why we have worked hard to provide best-in-class customer service as part of our pest control services. We might not be perfect, but you can rest assured that we will strive for perfection and ensure that you are completely satisfied with the quality of our services.?

The high-quality services provided by Backyard Bug Patrol have allowed the company to earn a stellar reputation among their customers, leading to their near-perfect 4.9 out of 5 Star review score (from over 110 reviews), as can be seen here: https://goo.gl/maps/6zRWtU89Ri82. In her recent review, Rebecca K. writes, ?We purchased the Flower Power program to control mosquitos in our yard. We definitely saw a decrease in mosquitos and could enjoy being outside in our yard this past summer. We've purchased the same program again for this coming summer. Backyard Bug Patrol was easy to communicate with, responsive, and on time. They even came out after a big rain to spray again for added protection. I highly recommend them.?

Karl B. also says in their review, ?We have used Backyard Bug Patrol since 2013 and are super happy with them. Frankly, it's the only transaction I have made in the Northern Virginia area where I think ?wow, this is a super value!.? One low payment, once, and our yard is mosquito-free all year. Before we used Backyard Bug Patrol, I could not walk 30 feet from my front door to my car without getting two mosquito bites. Since they have been servicing our yard, I haven't been bitten (at home) at all. We can use our deck, our patio; the kids can play on the lawn and the trampoline ? it is only Backyard Bug Patrol that makes our outdoor space livable. We do need to remember to keep the dog inside during the once every three weeks service window, but if we forget, Backyard Bug Patrol is always willing to reschedule.?

Those who want to learn more about Backyard Bug Patrol and the various services they provide can find further details on the company?s website. Additionally, the company encourages interested parties to get in touch with John Mitchell directly via email or phone. They can also be reached through the contact form on their website.
