

Northern NJ Plumbers Announce Tips For Pipes And Drains

January 21, 2015

January 21, 2015 -

Drain and pipe cleaning experts from Benjamin Franklin Plumbing have announced a new list of tips and tricks to help their customers clean pipes. They pointed out that while some pipe clog situations are easy to handle yourself, others require the assistance of a professional plumbing service. This particular NJ drain cleaning company offers a number of different services through their website, as well as an abundance of information on how to unclog a tub drain and other drain cleaning tips.

The Benjamin Franklin Plumbing company has provided videos with hands on explanations which are offered by The Home Depot, for a more in-depth look into what new and existing clients can do when a pipe or drain becomes a problem for them.

Benjamin Franklin Plumbing offers emergency plumbing services around the clock seven days a week and services up to 90% of plumbing items by first examining and then resolving the issue. They specialize in installing and repairing water heaters, water conditioning systems, drains, sinks, toilets, faucets, pumps, showers, tubs, disposals, pipes, and sewers.

Learning How to Unclog a Tub Drain - The Home Depot is one of the easy and convenient ways that this NJ drain cleaning company services their customer base. They also provide a number of different brands including Rinnai, American Water Heaters, Moen, Noritz, Wolverine Brass, TOTO and more.

Another way in which the company seems to reach out to their customers, alongside their many tips for resolving pipe and drain issues is by organizing a number of different coupons, which can be found on their website, for customers to print and use from home. Benjamin Franklin Plumbing seems to have a variety of coupons for a large selection of different services that clients may require such as \$300 off any tankless water heater, \$89 off any service over \$300, and for those who buy one bio-ben they get the second for half price.

The Benjamin Franklin Plumbing company provides all of their clients with a guarantee for timely service,

offering \$5 off of every minute that they are late up to \$300. They also guarantee all of their repairs, and supply additional repairs on any failures of initial repairs for free.

For additional tips and tricks not listed on the Benjamin Franklin Plumbing website, or for more info on what the company can do for you, they also have a blog where clients can go and read up on more helpful hints. This is in addition to the various youtube videos that the company supplies through the help of The Home Depot. Information found on the blog includes topics such as the change in pricing and policies for water heaters in 2015 and how to troubleshoot low water pressure.
