

# Best Buds Online CBD Store Announces Sale Of Delta 8 THC Gummies

*March 08, 2022*

March 08, 2022 - PRESSADVANTAGE -

Best Buds Online CBD Store has announced that it is now selling Delta-8-THC products on its website. The online CBD store is urging new and existing customers to learn more about the advantages of Delta-8-THC and the many products that it has for sale that encapsulate its goodness.

Delta-8-THC can be considered a chemical cousin of Delta-9-tetrahydrocannabinol (Delta-9-THC). The latter is the psychoactive substance in cannabis that gives those who consume it the feeling, as is referred to in layman's terms, of being "high." However, Delta-9-THC is not legal as it is the prime component responsible for the herb's intoxicating effects and is, therefore, not cleared for sale in several parts of the country where steps have not yet been taken towards the legalization of recreational marijuana.

Delta-8-THC, though chemically very similar to Delta-9-THC, is very mild in comparison and does not have nearly the same psychoactive effects. Instead, it has been reported that Delta-8-THC produces pain relief, euphoria, and relaxation while minimizing the loss of motor control, paranoia, and anxiety that reportedly accompanies the consumption of Delta-9-THC. In other words, the effects of Delta-8-THC are much less intense and much more controlled and tolerable compared to its infamous chemical variant. Thus making Delta-8-THC a viable alternative to Delta-9-THC, allowing users to enjoy the uplifting benefits of cannabis without risking their health.

Justin Davenport of Best Buds CBD Store talks about the Delta-8-THC gummy products it offers for sale by saying, "Our Delta-8-THC gummies offer cannabis connoisseurs a calming effect, spark a feeling of true happiness within them, and bring balance to their feelings of clarity, relaxation, and motivation. Delta-9-THC is not legal, and though significant progress is being made towards legalization in different parts of the country, there are still states and territories where you won't be able to enjoy the full benefits of marijuana consumption. Our Delta-8-THC gummies are the perfect alternative for those who want to get close to a full marijuana experience while staying within the healthy and legal limits. Our Delta-8-THC gummies are suited

for those who show sensitivity to high levels of Delta-9-THC, deal with frequent nausea, have appetite issues, want a more robust product than full-spectrum CBD, need a strong natural solution to pain relief, or have problems calming their emotions."

Best Buds CBD Store's current lineup of Delta-8-THC products includes the Neon Gummy Bears, Gummy Watermelon Slices, Gummy Apple Rings, Gummy Peach Rings, and Neon Gummy Cubes that retail for \$50 and have 600 mg of infused Delta-8-THC. In addition, the store also stocks Rainbow Nerds Ropes for \$22 that has 200 mg of infused Delta-8-THC. Readers can browse the offerings by heading over to the link: <https://bestbudscbdstore.com/collections/delta-8-gummies>.

Cannabis and hemp lovers who are 21 and older can partake in enjoying the benefits of Delta-8-THC, provided that their state or territory's laws allow for its consumption. According to federal law and many state laws, the Delta-8-THC gummies sold on Best Buds are completely legal since the Delta-8-THC extract used in their manufacturing process is derived from legal hemp and does not contain more than 0.3% Delta-9-THC, which removes them from the legal definition of marijuana in the Controlled Substances Act (CSA) as defined by the 2018 Farm Bill.

However, the company also explicitly says that it cannot guarantee that this product is legal in every customer's state or territory. It is up to them to determine its legality in their region. The company also says that it retains the right not to ship to any states or territories where local laws conflict with the 2018 Farm Bill.

The company reminds buyers that the products may cause drowsiness, and it is not recommended to operate heavy machinery or a motor vehicle after consuming them. The Delta-8-THC and its metabolites within the products may accumulate with use and result in a failed drug test for those who consume it.

Readers can also browse through the CBD store's collection of Full Spectrum CBD Gummies by heading over to the link: <https://bestbudscbdstore.com/collections/full-spectrum-cbd-gummies>.
