

## **Alabama Foundation Repair Company Moves To New Location Outside of Decatur**

*November 09, 2015*

November 09, 2015 - PRESSADVANTAGE -

Allied Crawlspace Solutions has moved to their new expanded facilities in Trinity, Alabama. The additional space will allow them to better handle the increased workload as demand for their services continues to grow. The company specializes in all areas related to foundation repair, including basement waterproofing, mold remediation, floor supports, vapor barriers, and concrete leveling. The change of seasons is an especially busy time in the humid north Alabama climate, as changes in soil conditions can lead to foundation settling and increased moisture penetration.

Company owner Allen Johnson has said about their waterproofing services: "We specialize in addressing all areas of your home that can lead or contribute to water leaks, saving you the hassle and cost of contacting multiple contractors to determine which part of your home may be responsible for the water leak or damage."

Allied Crawlspace says that homeowners can rest assured that they are up to the task as they back up their work with a transferable lifetime dry basement warranty. Allied will custom design the best solution for each home, using high quality materials that will stand the test of time. The crawlspace is often "out of sight, out of mind" and the consequences of cutting corners may not show up until an extensive amount of damage has

been done.

One satisfied customer, Joseph Hicks of Decatur, AL wrote of the BBB "A rated" company: "They did a fantastic job. The sump pump that was installed with the EZ flow is working flawlessly and I can tell an immediate difference in the fact that we now have no water under the house. That is remarkable considering there was standing water 6 days ago. I am very satisfied with the work. The team had a great attitude and were very patient with me as I asked questions and made recommendations on cleaning up."

The new Tennessee Valley headquarters is centrally located in the Alabama foundation repair company's service area which includes metropolitan Birmingham up through Ardmore and Fayetteville Tennessee, along with Huntsville, Decatur, Florence, Scottsboro and points in between. You can learn more and request a free estimate at their website or by calling (256) 580-3210.
