Nursing Cover For Breastfeeding And Pumping Released

November 04, 2015

November 04, 2015 - PRESSADVANTAGE -

Family First Enterprises, a business that creates products for mother and baby, and is based in Davie, FL, is proud to announce that they have launched their Infinity Nursing Scarf. This scarf has been designed to be both practical and fashionable. Since its release, the scarf has been flying off the shelves and has been receiving many positive reviews.

"Our nursing scarf has been designed to be beautiful but also very practical," says Kathy Dunn from Family First Enterprises. "New mothers want to look good and they want to make sure that they can feed whenever their baby calls for it. We feel our product meets all those necessities."

The scarf comes in a solid block color of either black, blue, grey, pink or yellow. This allows women to match it with whatever outfit they are wearing that day. Being one size fits all, it is suitable for anybody. Because of the one solid block color, it is not as noticeable in public, which is particularly important for mothers who want privacy when feeding or pumping, allowing them to cover up.

Being multi-functional, the scarf can also double as a car seat or stroller cover. As such, it may start out as a

trendy fashion accessory, but it quickly becomes a necessity when feeding, when the weather changes or when baby wants to sleep comfortably. These are all elements that have been noticed by customers. "It's very fashionable and breathable making you look stylish and beautiful. Wearing your Infinity Scarf design adds to your wardrobe and goes with all your outfits," says Umme, a self-proclaimed seasoned breastfeeder. "Easily converts from scarf to cover-up in seconds adding fashion to any outfit. Take nursing to a trendy new level. Jersey fabric that doesn't have snaps, buckles or zippers that is totally convenient and you don't have to worry about hurting your baby while you nurse."

This privacy nursing cover is made of a soft, breathable material. This allows baby and mother to remain comfortable while feeding as well. Designed also with safety in mind, the Infinity Nursing Scarf is set to become a bestselling item.
