Express STD Testing Allows People to Order STD Tests Online

March 08, 2022

March 08, 2022 -
Express STD Testing, which is based in Chicago, IL, is happy to announce that people they are offering access to convenient and fast STD testing. It just requires three simple steps.

The first step is to order STD tests online or by telephone. The second step is to visit the testing center. There is no appointment needed after the order has been placed. Same day testing can be done at any of their more than 4,500 local locations. The test will only take five minutes. And the third step is to get the test results, which are typically processed within 24 to 72 hours of the visit. These results can be accessed online via a secure patient login.

Jack Lombardi from Express STD Testing says, ?There is nothing as important as having control over your sexual health. This will only happen if you know your status. We exist to make sure you go through the STD testing process safely and conveniently. You can rest assured that our tests and testing processes are safe since they are approved and cleared by the FDA. Your medical information will be safe with us throughout the testing process. Be in charge of your sexual health and be part of the fight against STDs.?

There are a number of factors that differentiate the STD testing services provided through Express STD Testing from other similar services. These include: the use of a comprehensive test panel that includes all common STDs, such as Herpes simplex virus 1 and 2, hepatitis A, hepatitis B, and hepatitis C, gonorrhea, chlamydia, syphilis, HIV 1 and 2; convenience because of the thousands of testing centers throughout the US; the fact that the tests have been approved and cleared by the FDA; simple testing process where the patient doesn?t have to fill any papers or answer and questions that they consider to be uncomfortable; guaranteed privacy, which means the testing information is guaranteed to be secure; affordable prices for the STD tests; fast test results; and various payment options.

It is important to note that Express STD Testing does not offer at-home testing service to ensure accuracy of the test results. They take pride in the accuracy of the tests results (99 percent accuracy) that they provide and these can also be guaranteed by having the tests performed at the certified testing centers. The tests have been Clinical Laboratory Improvement Amendments (CLIA) certified and they have been approved by the FDA. It should also be noted that there is no need for a prescription to get an STD test at Express STD Testing.

The patient can request specific STD tests, such as: chlamydia testing; genital herpes test; gonorrhea and chlamydia testing; gonorrhea test; hepatitis A testing; hepatitis B test; hepatitis C test; herpes (HSV)) 1 and 2 test; HIV 1 and 2 antibody (4th gen) test; HIV RNA early detection; oral herpes test; and syphilis test.

Patients can also request for a comprehensive test, which covers 10 common STDs, such as HIV type 1 and type 2, herpes type 1 and type 2, Chlamydia, hepatitis B, hepatitis C, hepatitis A, gonorrhea, and syphilis. They also have a modern HIV test that can check for certain RNA in the blood. This allows the detection of HIV within 9 days after the HIV infection.

Patients can easily access their account. They can register by using their email or phone number. This means that they can used their telephone number, email, and a password to access the account. Most of the results become available after one to two days, although some tests, like those for HIV RNA and trichomoniasis may require an extra day.

Patients will be able to view their STD test results through their online account. It the results come back positive, the patient can pay for consultation fees and a prescription. The prescription will be available at a local pharmacy.

Those who are interested in learning more about the services provided by Express STD Testing can check out their website, or contact them on the phone or through email.
