Client Magnet Seminars, LLC, based in Branford, CT, is proud to announce that they have launched a new training seminar for estate planning attorneys in Indiana. The seminar is designed to encourage lawyers to help more middle class baby boomers protect their assets from the cost of long term care. Lawyers interested in joining the movement are encouraged to access the seminar through www.clientmagnetseminars.com.

"I have been protecting assets of baby boomers for quite some time now and it seems that very few prepare themselves for the possibility of long term care," says Mark R. Connell from Client Magnet Seminars, LLC. "I know that estate planning lawyers in the state of Indiana are also interested in this movement. What I would like to teach them is how to attract more middle class baby boomers so that they can be provided with the services that they require as they approach retirement."

Mark R. Connell has now started to offer this training to attorneys in the state of Indiana, so that the methods he has devised can be applied to residents in that state. The training is designed to show estate planning lawyers how to attract more clients and how to offer them the services they require.

Those who have taken part in the seminars to date have found that it has taken just 90 days to completely transform their law practice. Most of them have first accessed the various free resources offered by Mark R. Connell on www.markconnellattorney.com, and they have then decided to take part in a full seminar. "The free resources were great," says one Indiana estate planning lawyer. "It really showed me that there is a need for baby boomers to plan for long term care and that they often don't know how to go about that. I decided to enroll on Connell's seminar and have taken away so much valuable information. Not only has my client database grown massively since then, I feel I can provide them with better services as well."

Interested parties are encouraged to watch the video at the Client Magnet Seminars site and review the free resources that are available at Mark R. Connell's website before booking their place.
