

Unique Crystal Pyramids Unveiled In Tiny Rituals? New Collection

March 16, 2022

Encinitas, California - March 16, 2022 -
Encinitas, CA based Tiny Rituals, an online store that specializes in crystals and other small items, is pleased to announce the launch of their new collection. They are particularly proud of the collection?s crystal pyramids, which are perhaps its most unique aspect. Each pyramid is made of a crystal called Orgonite, a beautiful substance, and they add a certain level of charm to the new collection. The crystals are available for purchase on Tiny Rituals? website.

Orgone is a very unique crystal, and Tiny Rituals says it is imbued with Orgone Energy. Orgone Energy is found in all living things, often referred to as ?life force,? and it can be harnessed and expressed in a variety of situations. Otherwise referred to as ?chi,? Orgone Energy has the potential to completely change an individual?s life according to Tiny Rituals. Through gorgeous pyramids made of crystal, Tiny Rituals is looking to improve lives across the world.

?While it may sound like something plucked straight from the pages of a science fiction novel, Orgone Energy has long been a thing of curiosity for many of the greatest scientific minds of the 20th century,? Tiny Rituals says. ?It was first discovered by Dr. Wilhelm Reich, an Austrian scientist born in the alpine lands in 1897. A

student of Sigmund Freud, Reich published many books on psychology, including specific topics like anxiety and neurosis. Ever fascinated with the mind, Wilhelm Reich turned his attention to bioelectricity and cosmology, and spent much of the 1930s in New York immersed in tests with airborne organisms. In these organisms, he discovered a particle that he named Orgone. As his experiments continued, he began to compose devices around Orgone Energy that he believed could lead to healing.?

Orgone Energy could potentially be used for healing in similar ways to how the rays of the sun can be beneficial to the human body. Reich carefully cultured SAPA bions of Orgone Energy as a part of his research and placed cancer cells next to them. The cancer cells would die, and he came up with the theory that Orgone Energy could perhaps be used to combat a variety of other ailments, both physical and mental.

Reich, through his research, came to the conclusion that energy can be blocked by trauma and stored in the body, especially in muscles, leading to locked in tension. He referred to this as ?armoring,? and this would eventually lead to the energy stagnating and turning into Deadly Orgone Energy which was, in turn, responsible for all kinds of chaos and negativity both in the body and in the world as a whole.

Tiny Rituals says, ?If you think of the energy like a stagnant pond, we all know that dead water can become a difficult and toxic environment where life fails to thrive. However, water that is flowing and full of movement beautifully encourages all kinds of life and vitality to bloom. This can be similar when talking about dead stagnant energy, and Dr. Reich was interested in finding ways to get that energy moving again. He believed that all kinds of trauma imprinted itself on place and person, whether it?s a bad memory or an act of violence, the EMFs from technology, or anything that builds blockages in the body and the mind. This adds to the ?armor? in the body, and it prevents the beauty of creativity, love and positive intention to flow through.?

Dr. Reich later developed two inventions that he believed could turn Dead Orgone Energy into something useful that could heal: the Orgone Accumulator and the Cloudbuster. In the modern day, those who believe in the healing potential of Orgone Energy make use of Orgonite, a mixture of quartz crystals and metal shavings in resin fused in such a way as to transmute Deadly Orgone Energy into something positive. Tiny Ritual?s new Orgone Pyramids are an excellent choice for those looking to better manage Orgone Energy in their homes. Building an Orgone Accumulator or Cloudbuster in the home is generally impractical and unnecessary ? not when all the benefits of such devices can be gained from something as simple as an Orgone Pyramid.
